## HO SCALE CATALOGUE

Dear Modeller,

We hope you will enjoy browsing our current HO Scale Mail Order Catalogue. To help you we have provided a Table Of Contents (overleaf), which lists manufacturers in each Section of the Catalogue. To locate a particular item, use the "Find" command. However, there is also an Index at the end of the Catalogue, as an aid when using a hard copy. This indicates in which Section an item is to be found.

The Catalogue is updated several times a year. Whilst we do our best to supply every item listed, availability is beyond our control and cannot be guaranteed. As to prices, we will not charge more than the listed price without first informing the customer of any increase. **Our price, on items over \$100 retail, is the manufacturer's suggested price minus 20%, or better (indicated in red).** For most of the U.S. manufacturers included, a more complete listing can be found in the *Walthers HO Scale Reference Book*. If you wish to order items from this book, please state the complete item number. We will charge at most the manufacturer's suggested price. For US manufacturers, the retail price is currently calculated as 1.40 times the US retail.

The easiest way to order is to Email a "wish list". We will confirm the order and indicate if any problems are foreseen. Or, you may order using our supplied Order Form, or by 'phone or 'fax. We attempt to ship within four weeks of receipt of order. If items are delayed further we will keep you informed and give you the option of cancelling. New customers are asked to pre-pay with the order; subsequently we expect payment on receipt of a shipment. Payment may be by cheque, money order, Visa or MasterCard.

Goodies are shipped by Expedited Parcel, but we will ship by Xpresspost on request, for \$10 extra.

We are required by law to collect the Goods and Services Tax from Canadian residents. Similarly, Quebec residents must remit the Quebec Sales Tax; New Brunswick, Newfoundland and Nova Scotia residents must remit the Harmonized Sales Tax.

### ATLAS

*The items below are from the new Atlas Master DCC System. These components are easy-to-use and operate, offering a complete system at a reasonable price. Refer to the Walthers HO Model Railroad Reference Book for more details.*

322 Universal panel connector	\$28.95
330 "Commander" throttle/control	\$178.95
331 "HandCommand" throttle/control	\$150.95
332 DCC "Duo-Pack" (Commander + Generator)	\$199.95
335 "Generator" power supply, 15V, 3.0A	\$46.95
340 HO "Dual-Mode" decoder, 1.0A rated current	\$28.95
342 HO "Dual-Mode" decoder, 1.0A rated cur. (4 function)	\$34.95
343 15' cable wire with 6-pin modular connector	\$8.25

### BACHMANN

42200 Crossing signal and gate (6 ea.)	\$8.25
42240 Interior lighting kit with wire (x2)	\$8.75

### CAMPBELL SCALE MODELS

550 Track test light, sits across track	\$8.95

### CIRCUITRON

*This company produces solid state, board-mounted systems, including block and grade crossing signals, associated detector circuits and accessories, e.g. drivers, relays, switches, sensors, diodes. We supply the whole line. See Walthers HO Model Railroad Reference Book or Circuitron's Catalog and Application Book for more information.*

### CIR-KIT CONCEPTS

*The "Cir-Kit" concept of electrical inter-connection is a very flexible means of model railway circuit wiring. It uses flat, pressure-sensitive, adhesive-back Mylar for low voltage wiring. We supply the whole line. See Walthers HO Model Railroad Reference Book or Cir-Kit Installation Instruction Booklet for more information.*

### DIGITRAX

*We are an authorized dealer for this popular line of digital command control systems. Listed below are prices for those items available now and in the near future. We would be pleased to discuss your individual needs – give us a call, write, 'fax or E-mail.*

*The following decal accessories come in one-ounce bottles and are priced at \$3.50 each*

DECAL SETTING SOLUTIONS – softens decal film

104 "Micro Set"

*Brush where decal is to go. Wetting agents cut oils in new paint and strengthen adhesive on decal.*

105 "Micro Sol"

*Stronger formula than Micro Set, for use on larger details or stubborn areas. Just brush over decal.*

CLEAR FINISHES – clear resin, hides decal film

103 "Micro Coat Flat"

*Dead flat for dirty, weathered look.*

106 "Micro Coat Satin"

*Semi-gloss, for a less shiny or slightly dirty look.*

108 "Micro Coat Gloss"

*Provides a smooth surface for decals and a high gloss wet look when dry.*

117 "Micro Liquid Decal Film"

*Create your own decals or save old ones.*

110 "Micro Mask"

*Like masking tape in a bottle. Brush on and allow to dry.*

50 Microscale System Pack \$28.95

*Complete starter kit with one bottle each of the above liquids, plus a bottle of Micro Weld plastic cement.*

## RICK DECALQUES (DECALS)
