

New to the political scene, I put my name forward as a councillor for Ward 5, the area of Sudbury where I was born and raised. I love Sudbury and recently returned to my home city after employment in the United States, determined that our talented youth remain in Sudbury, so we may all prosper.

Five election goals:

1. Ongoing financial planning to improve and maintain our infrastructure, making Sudbury a great place to live and visit.
2. Rejuvenating our downtown core, a place of pride and activity, we all will flock to and enjoy.
3. Locally support and lend voice to 4-lane Hwy. 69 for our safety and to promote our economic access.
4. To re-design Waste Management and tipping fees to balance efficiency, cost, and environmental protection,
5. To promote quality and expansion of post secondary education and local employment for our youth - The Future of Sudbury.

Neighbourhoods need to be well informed so they can have a say in their development. Creating an accessible city government through neighbourhood meetings or on-line through website questionnaires will help me ensure the voices of Ward 5 residents will be heard in council.

I promise to be a good listener and a hard working advocate for the people of Ward 5.

New Energy, New Outlooks, New Voice for Sudbury
