

Los Alamos High School - Class of 1992

2002 Yearbook Update

"How Did We Get Here From There?"

Foreword by the Ten Year Reunion Committee

Greetings! I hope you enjoy the 2002 Yearbook Update for the LAHS Class of 1992. Since not everyone could make it to the reunion, I thought this would be a great way to share the stories of where we've gone, what we've done, and who we've become over the past decade.

I'd like to thank Lesli Crenshaw (Maas), Kimberly Howard (Coulter) and Doug Cram for doing the research and making the calls that allowed us to find so many of our classmates. Without their hard work, the reunion and the yearbook update wouldn't have been such a success. I'd also like to thank Google.com, whose search engine made finding y'all so much easier.

If we don't have a "now" picture, current contact information, or a biography for you, please send them in to: EricSalzman@global.t-bird.edu. The LAHS Class of 1992 "Yearbook Update" has a permanent home at <http://www.geocities.com/globalsalzman>, so you can check there for updates. (Start looking for 20 Year Reunion info sometime around 2011.)

Here's hoping we all have a great 2002-2012, and I'll look forward to seeing you all at our 20th reunion.

-Eric Salzman, Editor, 2002 Update

Darci Johnson (Albright)

Street: 2005 Brantley Road
City: Carlsbad, NM 88220
Phone: (505) 236-6016
E-mail:
Family: husband, two children
Current Occupation: Mother/Wife/Student

I got married with a year left of school, and my husband joined the Marine Corps. We found out I was pregnant before school resumed, and I moved out to Quantico, Virginia with him. We'd been there for three years when we decided to get out of the Marine Corps to pursue other goals. While in the Marines, I traveled some on the East Coast and I took some courses toward finishing my degree. We moved back to NM and I am currently planning on finishing my last credit hours this year. We now have two children (they are currently two and four years old) and I stay very busy.

Monique Isaacks (Allaire)

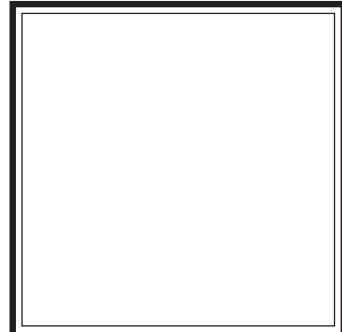

Street: 493 Talon Court
City: Birmingham, AL 35242
Phone: (205) 437-3745
E-mail: m_isaacks@yahoo.com
Family: Scott (husband), Joshua (son)
Current Occupation: Product Support Specialist

After graduating from high school in 1992, I attended college at Eastern New Mexico University in Portales, NM. I graduated in 1996 with a Bachelor of Science degree and an emphasis in Business. After that summer, I moved to Amarillo, TX to begin my first “real career” as a nutritionist for the Women, Infants, and Children (WIC) program. In the spring of 2000, I got married and immediately afterwards relocated to Birmingham, AL due to my husband’s job. I have a son named Joshua and an American Skims (dog :) named Koty. I currently work for AmSouth Investment Services in the Platform Annuity Program.

City: Albuquerque, NM 87114
Phone: (505) 890-8841
E-mail: tom@novint.com
Family: Kari (wife)
Current Occupation: CEO of Novint Technologies

I went to college originally at NMSU, and then transferred to UNM to be with Kari, my (at the time) soon-to-be wife. We got married in 1996, then I graduated from the Electrical Engineering (EE) department at UNM. I went to grad school at the University of Washington (U-dub), and graduated with a master's degree in EE. Kari and I then moved back to Albuquerque, and I began working at Sandia Labs as a Member of the Technical Staff. I found I had the entrepreneurial itch, though, and left Sandia to start a company, Novint Technologies, in 2000. I have been working at Novint for the past two years. We're expecting our first child in July of 2002, and I'm really looking forward to being a father.

E-mail: ken.bailey@exodus.net
Family:
Current Occupation: Computer Security Engineer

I graduated from Beloit College (Beloit, Wisconsin) in '96 with a BA in History and a minor in Classical Civilizations. I promptly did nothing with it. Then I came back to Los Alamos and got a job as the systems administrator at Santa Fe Trail Internet (now closed). I lived in Santa Fe for about a year and got a new job at Galaxy Computer Services (also in Santa Fe and also closed) as a computer security consultant. After about a year I got a job in Virginia with another computer security company named Arca Systems that was bought by Exodus Communications the first week I was there. I was then transferred to Exodus' security services group where I became yet another security consultant. In 2000 I transferred to my current group at Exodus. I now work on incident response and hacking investigations for Exodus and their customers. I also monitor a fleet of Intrusion Detection Sensors all over the world.

E-mail: anzha@hotmail.com
Family:
Current Occupation: Supercomputer System Administrator

1992-1994: (College) Worked on a physics degree seriously NMSU.

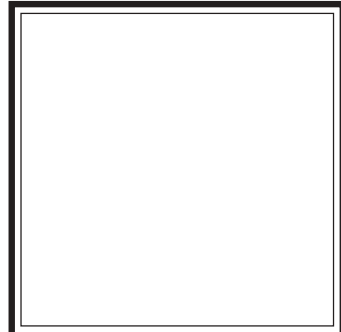

1994-1998: Started an Internet Service Provider (ISP) in Las Cruces and coached local teams in the New Mexico Supercomputing Challenge. The ISP went under when my partner tried to cheat me out of the business, and I moved on to a new job doing C coding at TSI, a small defense contractor.

1998-2001: (HELSTF) I got a job out at White Sands Missile Range, specifically the High Energy Laser Systems Test Facility. I got to play with the chemical lasers out there as the lead programmer and sysadmin in the data acquisition and processing facility.

2001-present: (NERSC) I am currently the lead sysadmin on the Cray supercomputers at the National Energy Research Scientific Computing center at Lawrence Berkeley National Labs: the place Oppenheimer and crew came from to found Los Alamos.

Current Occupation: I own a travel agency

After living on my own since July 1992, I completed travel agent school. I have been married since July 1995. I worked for the Lab in the travel department until having my oldest child. I started my own business in 1997 and am a full time travel agent/owner of Dugan's Travels (Website www.duganstravels.com). I am also a full time stay at home mom. I have 90 agents who work with my agency from all over the United States and Canada. I also write travel articles for the Monitor and other magazines and newspapers. I have written three books (available at www.bizmoms.com). I travel a lot with my family.

Julia Bodenbach

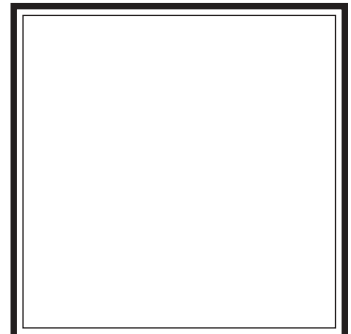

Street: Alexanderstr. 3
City: 90459 Nurnberg, Germany
Phone: +49-(0)911-4311544
E-mail: julia.bodenbach@cdi.fr, j.bodenbach@dmx.ge
Family:
Current Occupation:

Julia always enjoyed sciences and languages. Pursuing both fields, she went to Spain for eight months to study the language after her Abitur and studied mechanical engineering at the RWTH Aachen. During her studies she focused on methods of production. During her studies she went to Mexico for a six-month internship at Volkswagen to get practical skills, revitalize her Spanish, live in a completely different culture and travel with her backpack through the Mayan country. In the CDI Julia sees the opportunity to improve her management, economic, strategic and international skills and experiences – also to practice her French after all the Spanish. Her mission is at Siemens is restructuring the processes of innovation within a strategic field. After the CDI Julia expects to work in a strategic or organizational field of an international company, where she can apply German, English, Spanish and/or French, and deal with many different kinds of people.

After getting my BS in Health Education and Biology at Texas A&M University, in 1996 I moved to Dallas to teach Health and Biology in a high school and English as a Second Language (ESL) at a University.

After taking many trips overseas, I eventually decided to move to Central Asia in hopes of using my health education degree there. I am currently in language study Asia, visiting the States every few years.

Mark Brittelle

Mark will always remain with us
For his spirit lives on,
And good memories will never fade
Because our friend is gone...

A friend we've lost can never be
More than a thought apart,
For as long as there is memory,
They'll live on in the heart.

In memory of Mark Brittelle
LAHS Class of 1992

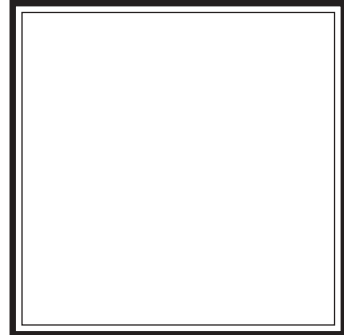

I never thought I would be making a yearbook update for my best friend.

Mark Brittelle left us on July 11, 1995 in a tragic motorcycle accident in Farmington, NM. He was working on a construction job with fellow classmate and good friend Barry Kiess at the time of his death. Mark had a huge sense of adventure and he liked to live life on the edge. There were a lot of wild, crazy things that we did in high school and a lot of times Mark was the pioneer of these events. It's funny though, that is not what I remember the most about him. He was truly a great friend, he had a big heart, he was a hell of a worker, and his family and friends were #1 priority with him. I know if he was alive today and I needed his help, he would be there. That's the kind of guy he was.

As we celebrate the past ten years of our lives and what we've accomplished, I hope we also recognize that life is fragile. Don't take your blessings for granted. Our high school experiences mean a lot and our high school friends mean even more. Take a moment to remember the laughs and good times you shared with all of our fellow classmates. And I bet Mark would appreciate a toast with a cold Coors beer!

E-mail: gkruger@umich.edu
Family: Bob (husband), Mason (son)
Occupation: Working away at combined MD/PhD degrees at U. Mich

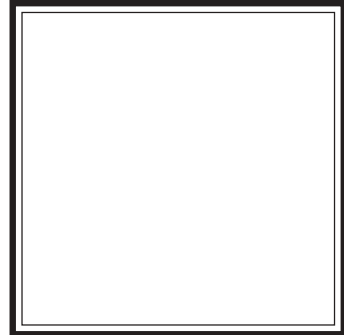

I went to Rice and graduated in chemical engineering, then to London for two years on a Marshall scholarship. Bob went with me, and we collected some not too useful Master's degrees but had a great time at the pubs. We were married back in Los Alamos during the summer of '97 and spent our honeymoon in Rome and Venice. In '98, we moved to Michigan for graduate school and hope to complete our degrees sometime before the next reunion. Currently, I am doing research on neural stem cells and thinking of a residency in pathology.

Last summer, we were overjoyed to have Mason join our family. I'm not sure what has happened since then as we haven't gotten much sleep.

Current Occupation: Marketing Consultant

After our graduation, I attended the University of California Santa Barbara (UCSB) for four years and received a Bachelors degree in Business Economics. I spent the majority of the following year (1997) as a volunteer English teacher in Costa Rica, with a program called World Teach. Upon returning from Costa Rica, I moved out to San Diego, CA where I worked for an international language school. In the fall of 1998, I started my Masters in International Business at the University of California San Diego (UCSD), where I also met my fiancé Bob Loy, a major in the US Army. After graduating in 2000, I moved to Hawaii where Bob was being stationed at Pearl Harbor. I worked for Cheaptickets.com as a Marketing Analyst for over a year until the company was acquired and moved to New Jersey. Not wanting to leave Hawaii, I parted ways with Cheaptickets and took a job as Director of Marketing for a start-up travel software company. That has recently gone under, and so I am taking this opportunity to start my own business providing marketing, web design and development, and public relations services to the local business community. Bob and I will be married on September 1 of this year and will continue to reside in Hawaii at least until next summer. We don't know where we will be stationed next, but we are enjoying every minute of being in Hawaii. My interests include scuba diving, kayaking, hanging out with friends and volunteering as a member of the Junior League of Honolulu.

Current Occupation: Physicist/Engineer for Defense Contractors

My chronicles of the last ten years, in roughly chronological order:

- Intermittently attended college at Texas Tech for 6 years, finishing with a B.S. in Physics and Math.
- Worked in Los Alamos at the Lab for around 6 months.
- Killed a man in Reno, just to watch him die.
- Struck out for Washington, D.C.
- Landed in the D.C. 'hood, jobless, where I was surprisingly well-received as the token neighborhood cracker.
- A lovely stint of character-building pink-collar temp work, punctuated by hanging out on the stoop drinking Forties. Seriously.
- Landed a job working for an especially venal defense contractor on cruise missile guidance systems for the navy.
- Moved to a nicer part of D.C.: DuPont Circle, affectionately known as "Boys' Town" for its high population of gay men.
- In a fit of self-loathing, I quit the morally indefensible defense job for a somewhat more palatable job at a somewhat less reptilian company. This time, working on military radio signal intelligence systems.
- Moved in to Cleopatra the girlfriend's house in Fairfax, Virginia.
- Stripped out and rebuilt much of Cleopatra the girlfriend's house in Fairfax, Virginia.
- Acquired Akira the dog.

Current Occupation: Web Development Manager

I graduated from NMSU with a degree in Criminal Justice. Shortly thereafter, I moved to Denver. Then I moved to Northern California (Napa area), back to Colorado, and now I've settled in Phoenix, AZ. No husband, no kids, but I do have a neurotic pit bull/German Sheppard mix - Yaz.

Currently, I'm the Web Development Manager (really putting that CJ degree to work) for a publishing company in Scottsdale, AZ. Lovin' the Cactus League, boiling internally, and being asked everywhere I go if I'm wearing white panty hose.

Current Occupation: Scientist

Aron has spent the last ten years living in San Diego, Boulder, and Boston, pursuing higher education and stuff. Aron now fritters away his time developing cures for neurologic diseases and being a very bland radio personality. He has no family or pets, but he does have some plants, including a begonia, an African violet, a Christmas cactus, a barrel cactus, a big tree-looking thing, a palm-tree-looking thing, a spider plant, and a dying whatchamijigger plant like they always sell around Easter, if you know what I mean. He also has a couple pots full of cilantro, but those don't really count because he'll probably eat them.

Current Occupation: Librarian/Student

After high school I spent a year in Sicily as a foreign exchange student - the best and worst year of my life! Then I attended Syracuse University in upstate New York, where I received my Bachelor's degree in Art History and Italian. During college I spent another semester in Italy - this time in Florence. After college I moved to New York City, where I've worked at an investment bank, a publishing company, and now in the library at the Metropolitan Museum of Art. I am also currently working on my Master's degree in Library and Information Studies at Queens College. Other than my time in Italy, I've spent time in Spain, Morocco, Greece, and Turkey among other places. If you're ever in New York please feel free to look me up!

Current Occupation: Human Subject Researcher

The last ten years have been adventurous, starting with my first year in college in Utah and a 2 1/2 year church mission on the island of Puerto Rico. Upon returning, I spent the next 3 years living on the North Shore of Oahu at Brigham Young University - Hawaii Campus. I also met my wife there: Wai Ling (or Stella), a native of Hong Kong, China. Once I graduated I worked one year until she finished school as a Therapeutic Aide working with mentally and developmentally handicapped children. After my wife's graduation, we moved to Saint Louis, Missouri so I could attend the George Warren Brown School of Social Work at Washington University. I recently graduated with my Masters in Social Work and have started a job with the Medical School doing Human Subject Research with a main project focus on Vietnam Veterans. My life has been quite full since leaving LAHS and I only hope to continue having such a fantastic journey. I wish the alumni of class 1992 well.

Family: Steven (husband)
Current Occupation: Automotive Engineer / Program Manager

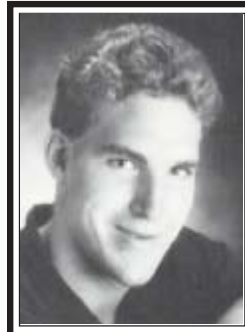

After graduation from LAHS, I went to Michigan State to pursue a degree in engineering. I competed in both indoor and outdoor Track for four years and placed nationally. I also was actively involved in Student Government and Resident Life. In May of 1997, I graduated with a Biosystems Engineering degree (dual Environmental/Mechanical Engineering degree). I moved to the Detroit metro area and accepted a job with Dana Corporation to design brake components for Ford Programs. I have worked for Dana since then, primarily on truck applications and a Program Management basis.

I met my husband Steve on a blind date while I was at MSU, and we were married in September of 2000. Steve is currently working for IBM. Together, we have purchased a house and a Bayliner Capri boat. We enjoy boating, working on our house and yard, enjoying the outdoors, and traveling. I also love to scrapbook and co-own a flourishing scrapbooking and stamping store.

Family: Sandi (wife)
Current Occupation: Software Developer

After high school, I went to college at Georgia Tech. While there, I was an All-ACC high jumper and graduated with Honors in Mechanical Engineering in 1996. After a short stint with a small pulp/paper industry design firm, I changed careers and started in the computer programming arena. I finally settled into a place I feel comfortable with: a call center monitoring development company in Alpharetta (north suburb of Atlanta) Georgia, and have moved into a technical lead position on the reporting team. While still in school I met my future wife, Sandi Pool, and we were married in May of 1999. We have been able to travel quite a bit because she works for one of the Big Five consulting firms as a manager and routinely traveled to NYC for business. We recently adopted a dog named Bo (short for Bocephus).

Current Occupation: Software Developer

I went to school at Texas Tech after high school. That's where I met my lovely wife, April. We were married after I graduated (B.S. Computer Science, B.S. Math) in the summer of '95. After that, we moved to Chicago so that I could pursue my M.S. in computer science. After graduating, I took a job at Arthur Andersen while April finished her degree (another Math major). When we were both done with school, we started a family and moved to Round Rock, Texas, a suburb of Austin. April has elected to stay home with our son, Eli, who is two years old and lots of fun. My first job in Austin was for a small wireless startup, but I now work for Dell through a great consulting company. As happy as I am with the rest of my life, though, nothing can compare with my deepening relationship with Jesus Christ over the past decade. Ask me about it; I'd love to thump you with my Bible... or maybe just tell you about the lives I've seen him change. :-)

Current Occupation: Wanderer

After high school I took a year off and lived in Oxford, England working at a church and coffee house. During that year I traveled around Europe, including a refugee relief trip to Bosnia. Upon returning to the States, I attended NMSU for four years and came out with a degree in Special Education. During those college years, I fed my desire to travel by going to Israel and doing a summer long tour around Europe. I left Las Cruces in May of '97 and did my student teaching at Mountain Elementary in Los Alamos. I was also working at the lab at the time, starting up the LANL Student Association. I graduated in Dec '97 and continued to work at the lab until the following October. At that time, I had accepted an invitation to be a Peace Corps Volunteer in the Republic of Kiribati. After three months of culture and language training, I spent two years teaching English, Math, and Social Studies at a junior high school on a remote outer island. I lived in a thatch hut on the beach with no electricity, no running water, and a constant rat problem. I enjoyed my time there so much that I extended my service for another year. My third year I moved to the capital island, Tarawa. I was the Peace Corps Kiribati Volunteer Leader, where I had administrative oversight over 54 other volunteers. I finished my service in January of this year and traveled for a few months on my way back to New Mexico. I am now temporarily working at the lab again, doing admin work with the Postdoc program. I am applying for graduate school in International Management/Development, hoping to spend more time living overseas.

Current Occupation: Veterinary Assistant

I attended NMSU in Las Cruces from 1992 - 1995 while working part time as a veterinary assistant. I moved to Roswell, NM in 1995 and worked for an optometrist. I spent a year in Los Alamos from 1998 - 1999 working at Los Alamos Family Council. I moved to Northern Virginia in 1999 (Washington DC area) and worked as a veterinary assistant in a huge state-of-the-art Veterinary Referral Center. I moved back to New Mexico (Albuquerque) a year ago. I have been working as a veterinary assistant in a great six-doctor animal clinic and love what I do. I have a menagerie of pets including dogs, cats and ferrets. I also train my dogs in obedience and agility. I spend my free time hiking, playing pool, watching movies, dancing, listening to music, reading, and fostering homeless animals.

Current Occupation: Bookkeeper

After high school I got a degree in Sociology & Criminal Justice at Northern Arizona University in Flagstaff. After graduation in 1996, I married Daron Crenshaw (LAHS '93) and we moved to Rio Rancho. I worked for Intuit supporting Quicken, and then as a bookkeeper for a research/development company and I was also the office manager for Young Life Albuquerque. We had a daughter, Courtney, in May 2000 and our son, Tyler, was born in Oct. 2001. We moved to eastern CO in the fall of 2000 and bought a custom cabinet shop. Now I keep the books for the business and do the computer drawings and bids. I love being a mom of two little ones and really enjoy helping my husband run the cabinet business. If you need new cabinets for your house, let us know!

E-mail: tire.guy@verison.net
Family: Kindra (wife), Hayden (son), Laura (daughter)
Current Occupation: Tire Sales & Service

Over the last ten years I have been doing a number of things. First off I have been busy with my wonderful family: my incredible wife Kindra and our two children. Our son Hayden (5) is going to start kindergarten this next year. Our beautiful daughter Lauren (2) is great at keeping us busy. After a short, successful career in Real Estate, I was looking for a company which offered all the benefits so that I could retire some day and not be afraid to go to the doctor. Insurance is a wonderful thing when you have a family. I found this in Les Schwab Tire Centers, an independent tire dealer that has now covered the North West. We have over 330 stores in Washington, Oregon, Idaho, Nevada, Montana, Alaska, Utah, and California. It is a phenomenal company to work for. I am proud to be a part of such a wonderful company. We live in the small town of Newberg, which is about 25 miles southwest of Portland. Yes, we are in the heart of wine country. It is a wonderful place to live and raise a family. We are about 1 1/2 hours from the beach or the mountains. We can really pick our poison. There is great fishing up here. There is nothing like landing a 50 lb. Salmon. You haven't been fishing until you get into a good salmon run.

Family: Tyler (wife), Colten (son), Karley (daughter)
Current Occupation: Engineering Manager

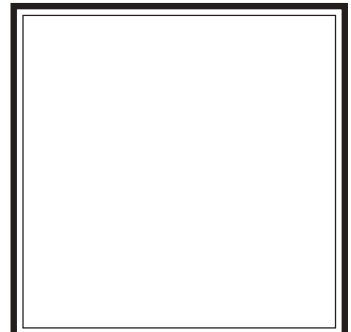

After high school, I moved to Stillwater, OK to attend Oklahoma State University. I graduated with a BS in Mechanical Engineering in 1997. I married Tyler Schones in August of 1996. I met Tyler during my first year of college and we have been together ever since. She was born and raised in Oklahoma in a farming family on the outskirts of Oklahoma City. In addition to marrying Tyler, my two biggest achievements are the births of my son, Colten, in October of 1998, and my daughter, Karley, in May of 2001.

I worked for the MerCruiser division of Mercury Marine in Stillwater, OK as a Project Engineer and an Engineering Manager until 2001. I now work for Wood Group ESP, Inc. in Oklahoma City as the Engineering Manager for the Test Systems Engineering Group. With the job change, we relocated north of Oklahoma City to Edmond, where I recently started my own business.

We still visit Los Alamos regularly to see my parents. I have not been very good about keeping in touch with high school friends, but still see some of them when we visit.

Current Occupation:

Hi- My name is Christina (Martin) Sherman I don't have a current picture for the computer yet but I will see what I can dig up. Anyway. After graduation I moved to Buffalo, NY where I went to Canisius College for undergrad. My freshman year I met a man named Dan Sherman— we fell madly in love and he is now my husband of five years. I graduated in 1996, worked as a social worker for a year & then decided to go to grad school. Dan & I were married in August 1997. From 1997-1999, we worked on Masters degrees at Colorado State in Ft. Collins, CO. In 1999, I decided that I needed a career so we moved to Ithaca NY. I went to Cornell Law School & Dan worked on his PHD in Government. I just graduated from law school & I am currently studying for the bar. In August we are moving to Corpus Christi, Texas where I will be clerking for A U.S. District Court Judge, & Dan will be writing his dissertation. Since we are moving I really don't have contact info to give you. My email is shermancshermanc@yahoo.com, our current number is (607) 539-6158. My email will stay the same but obviously or phone will change in the next month. I am so sorry I couldn't be there this summer I really wish I could see everyone. Best Regards!

Current Occupation: Smokejumper for the USFS

In '94 I left UNM to pursue skiing in Steamboat Springs, CO. I lived there for three years trying to do as much damage to my body as possible. Fortunately I walked away with some sanity still intact and a beautiful girlfriend, Shealyn Kelsey. In '97 I started work for USFS as a crewman for the Blue Ridge Hotshots in Arizona and went back to school with Shealyn at Fort Lewis in Durango, CO. For the next couple years I changed majors a couple o' times and was sucked into a career in fire for the USFS. In January of '99 I married Shealyn and took a job with the Prineville Hotshots in Oregon. After moving to the northwest it's been hard to leave. The fish are big and there is always a ski season. 2000 found me back in Arizona for the summer (southwest fire seasons are much more exciting) though and of course back in Los Alamos with the Blue Ridge Hotshots. I left LA with a different perspective of fire and now it is my full fledged career. Currently I am a smokejumper for the USFS and live in McCall, ID with my wife Shealyn and my dog Hunter. I wish everyone well from the class '02. Congrats to those with bright new families and good luck. Maybe I'll see you at the next one.

Current Occupation: Director of "Anything's Possible" Daycamp

- First off: I'm no longer a Christian and I never became a missionary, surprise, surprise!
- 1992-1995 Attended The Master's College in Southern California, a Christian College. Changed double majors between Elementary Education, Biology and several different emphases of Bible Major.
- Fall 1994 - Attended The American School for Holy Land Studies in Jerusalem, Israel. (study abroad with the Master's College)
- Spring 1995 - Had a session of doubt that never went away. I thank those Christian friends there who encouraged me to apply to a secular college and do my searching for the truth there. A very difficult semester emotionally and mentally.
- Fall 1995 - Came to NAU in Flagstaff Arizona and joined a great church there.
- December 1995 - Stopped calling myself a Christian and stopped attending church.
- May 1996 - Fell in love with Guy Gaffney
- Summer 1996 - First summer I didn't work at Los Alamos County Summer Camp. Did field research on prairie dog language.
- May 1997 - Received Bachelor's Degree in Biology.
- 09/97 - 05/98: Attended Shifan Daxue University in Kunming, Yunnan, China, to perfect my Chinese & experience the country.
- August 13, 1999 - Married Guy Gaffney in Los Alamos and honeymooned in the Jemez mountains.
- January 2000 - Returned to Student Teach at Los Alamos Middle School. March 2000 - asked to be transferred to Kindergarten.
- Fall 2000 - Student taught in Kindergarten at Barranca School.
- December 2000 - Received Bachelor's in Elementary Education from NAU.
- Spring 2000 - Substitute teaching for Los Alamos Schools.
- Summer 2000 - May 2001 Children's Librarian at Mesa Public Library.
- Currently - Director of "Anything's Possible" Summer Daycamp.

After leaving the hill for Norway in the summer of 1991, I came back to Los Alamos the next summer and made my move to college in Iowa. I graduated in 1996 from Cornell College in Mount Vernon, Iowa with a BA in sociology with a real interest in housing and community development issues. That summer I began work for a non-profit in Cedar Rapids, Iowa called Mid America Housing Partnership (MAHP) where I spent the next 5 years helping to write grants, start programs, work in neighborhoods and develop affordable housing. From there I made my way back to school last fall and just finished my first year of my MS degree in Urban and Regional Planning at Florida State University. I will hopefully complete that in the Spring of 2003. Where I go from there, who knows? But I hope to have my S.O. of four years by my side as she embarks on graduate school as well.

Family: Gareth & Matthew (sons)
Current Occupation: Systems Support Specialist

The last decade huh.....well I am the proud mother of two little boys. Gareth was born in December of 1994 and Matthew was born in February of 1998. Gareth has blond hair like his mother and light blue eyes (Jennie Bosler is his proud God-Mother). Matthew has brown hair with darker blue eyes. These guys are my greatest accomplishments this decade. I have lived in Texas, Colorado, and Illinois since graduation. I have now been in Illinois for six years and I have been working for State Farm Insurance Corporate Headquarters for 2 1/2 years now. I live in a small town of 500 people and commute twenty minutes each way to work in Bloomington, Il. Illinois is nice but I definitely miss the mountains, these people have no idea what a mountain is! :) Corn is cheap though. I just became an aunt for the first time this June. My sister Jaime is married and little Alyssa Nell Cawthron is their first child. My dad is jet setting around the world working for a company called SAIC and it seems like he will never settle down. My mother is remarried and living happily in Texas. My life is pretty dull; work, soccer practice, t-ball, swim lessons, and quality time with my kids absorbs all my time. I get out occasionally on the lake here and I have been to visit old friends from high-school a few times which gave me the opportunity to see some new places. I hope everyone has been well this last decade and enjoys the reunion.

Current Occupation: Computer Science (LANL)

I started out thinking I wanted to be a professional drummer, so I spent the first four years after high school playing in various bands in Chicago and Boulder, CO. I realized that while music is fun, it's not that easy to make a steady living at, and I decided to go back to school. I moved to Southern California, and spent the next five years going to school out there, finally ending up with a BS in Math and a minor in CS. I was also working at LANL during the summers, and I moved back here with my fiancé after graduating. They hired me at LANL, and I'm currently working in computer security, and will be starting a remote masters program at USC in the fall. We moved to the Jemez, and own a beautiful cabin on two acres near La Cueva. We are currently hoping that we'll still have a house after this year's fire season.

E-mail: jcsopf2@aol.com
Family: Justin (husband), Natalie Nicole (daughter)
Current Occupation: Juvenile Counselor

I received a Bachelor's in Psychology with a focus on child development from UNM in 1996. After undergraduate school, I got married to my high school sweetheart, Justin Sofaly. We moved back to Los Alamos and leased my mom's restaurant, The Blue Window Bistro, for two years while she lived in France. We both agreed that the long hours and stress of the restaurant business were not for us. I also wanted a career that was more emotionally rewarding. Next, we lived in Couer d'Alene, Idaho, and I began working as a counselor at a juvenile detention center. In 1999, we moved to Boise, Idaho. I have been working for the Department of Juvenile Corrections as a juvenile counselor for the last three years. Having been a mixed up teen with an attitude, I find it very easy to relate to the adolescents I work with. While working full time, I earned a Master's of Social Work at Boise State University in 2001. By far my best accomplishment since High School was the birth of our daughter, Natalie Nicole, last August. She is now 10 months old and my pride and joy. Our family also consists of two wonderful Springer Spaniels (Tel & Ty) and two mustangs from the adopt-a-horse program in White Sands (Flash & Belle). Justin recently started a finish carpentry business, Timeless Woodwork. There have been some difficult times, but overall it has been a pretty good decade.

Family: Sunshine (fiance)
Current Occupation: Musician

I attended the University of the Pacific Conservatory of Music in Stockton, California from 1992 through 1996, where I earned my Bachelor of Music in Bassoon performance. I currently live in Chicago where I work as a freelance musician. I play Principal Bassoon in the Rockford Symphony and the Quad City Symphony (Davenport, Iowa) and Second Bassoon in the Illinois Symphony and the Illinois Philharmonic. I also perform periodically with Lake Forest Symphony, Elgin Symphony, Indiana Symphony, Metropolis Symphony, and the Chicago Chamber Orchestra. At the time of the LAHS 10 year reunion, I am playing in the orchestra for the Des Moines Metro Opera in Iowa. In August, I will be married to Sunshine Simmons, a clarinetist in Chicago from Somerset, Pennsylvania.

Current Occupation: Case Manager

I attended NMSU and got to know several LAHS classmates that I didn't really know in high school; I'm very thankful for that! I had a blast at NMSU, managing to stay out of jail and most hospitals. Since graduating with a BA in Psychology and Women's Studies, I have lived in the Albuquerque area, working in mental health facilities and recently, as a case manager for homeless women and children. I currently live with another LAHS grad ('89), James "Shmoo" Hodgdon, and have two beautiful dogs, Chloe and Koda. I still play volleyball and tennis when I get the chance but generally spend time at home and continue to stay out of jail and most hospitals. My Mom still lives in White Rock, and will forever, so that gives me a chance to stay connected to Los Alamos, a place I still consider "home."

Current Occupation: Public Information Officer

1992-1996: (The College Years) - While running the campus game club (D.R.A.G.O.N.), somehow found time to earn a BA in International Relations and a minor in Political Science at UC Davis and the UC Washington Center. Interned in Senator Bingaman's D.C. office while at the UC Washington Center. Upon graduation, signed up with the Peace Corps to teach English as a Foreign Language.

1996-1997: (The Long Lazy Year) - Ah, bureaucracy. Spent a year living at home in Los Alamos working at LANL and teaching/tutoring at UNM-LA and with the Literacy Volunteers of America before shipping out overseas. The hiking was excellent.

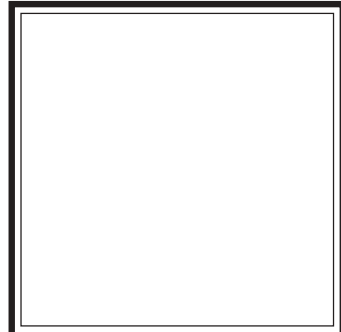

1997-1999: (The Peace Corps) - Taught English in Romania, learned to speak Romanian fairly well, had run-ins with the local secret police (it turns out that it *wasn't* a good idea to make fun of them on my radio show), put together cultural exchange projects, traveled to Hungary, Turkey, Austria, Germany & Bulgaria on vacations, used a product called "SuperKillTox" to combat mosquito infestations, helped organize the regional Peace Corps Halloween party in Transylvania, and was a guest speaker at an English Teachers' conference in Sovata, where I met a wonderful Hungarian woman who returned with me to the states and became my wife at Tsankawi in 1999.

1999-2001: (Grad School) - Moved to Arizona and got an MA from Thunderbird, the American Graduate School of International Management. Interned at LANL with the Technology Commercialization Office the summer after Cerro Grande. Graduated with honors, but the start-up company that had promised me a job went bust, so moved back home to LA to seek employment sans rent.

2001-2002: (LAPS and beyond) - Spent six months sending out applications before stumbling across a vacancy in the Los Alamos Public Schools. Maintained the website, photographed events, wrote education articles for the Monitor, and organized the Teacher of the Year & County Speech competitions. Worked on the side as the NM product demonstration agent for FanPro, makers of fine miniatures wargames. Passed the State Department Foreign Service written exam in September '01 and the oral assessment in February '02. Was grilled by an FBI agent who seemed more interested in Wen Ho Lee than my background check, but passed that as well. Should be starting work as an economic officer with the diplomatic corps at some vague point in the future. (Ah, bureaucracy).

Current Occupation: Postdoctoral Researcher

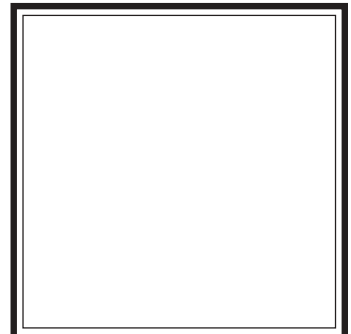

I read my very boring and official description of my life taken from my web page and it was just too painful. So here's what happened in order (more or less):

- I went to school at Harvard and got very cold, and also very pale, and also very sick of dealing with people with names like "Rory Brown" and his dog "Artemis" but I got a degree though.
- I moved to the Bay Area where I warmed up a bit, and went to grad school at Berkeley in Astronomy. I became sort of a light brown color. There were no earthquakes.
- At one point, my advisor moved away and dragged me over to England, where I started to become cold and pale again, so I abandoned ship and moved back to California and I found a new one.
- I met the lovely Zofia who lives with me now in sin.
- I graduated last year and got a posdoc for a couple of years in Italy.
- Next year I'll move back to the US, wherever I get a job.

In there some other stuff happened like I was robbed at gunpoint. I got food poisoned on a plane on the way to my girlfriend's house who broke up with me when I got there. I drank gasoline out of a mislabeled bottle in Bill Dorin's fridge and found out that you live when you do that. I rode around on a camel in the desert in India one time and bumped into a friend from college. My grandma turned 90. Some things that didn't happen so far were me getting extremely rich or very poor, or having any children.

Family: Kendra (wife), Gracen & Mattlin (daughters)
Current Occupation: Maintenance Technician

I attended the United States Military Academy Prep School in 92-93. I moseyed on out to Oklahoma State University (GO POKES!) and got an ag degree (BS in forest management Fall 1997). I worked on oil rigs as a roughneck during my last two years of college and a year or so after graduation. When the drilling company disbanded, I worked various forestry-related jobs that required too much travel and too little pay. That brought me to Mercury where I am today. During the first couple of months at OSU, I met a genuine country girl-Kendra-and married her on a hot August day in 1995. Kendra insists on staying in Oklahoma, so working for the USFS in New Mexico will probably never be. We have two beautiful little girls, Gracen Keely (2 1/2 yrs), and Mattlin Bree (11 mos). Kendra works in public relations for Central Rural Electric Cooperative in Stillwater and has done so for 8 years. We live in the country and our favorite pastime is playing with the kids outside. I try to squeeze in a little hunting, fishing, and tinkering with old cars when I can. We're involved in several community activities in our small town and we are active in Lost Creek United Methodist Church. I have a great wife, two wonderful kids, and I know we are pretty lucky to have the life we have! If y'all ever pass through Oklahoma territory, look us up!

Family: Carlos (husband), Ian & Liam (sons)
Current Occupation: Mom / Movie Reviewer / Golfer

The summer after graduation, I went to Brigham Young University. When I wasn't studying (which was a lot of the time), I fulfilled my lifelong dream of becoming a model. I modeled for an agency in Salt Lake City called KLC. It wasn't all it was cracked up to be - so I got out. In 1994 I met my husband, Carlos. We got married in December of 1994. In 1996 I graduated from BYU with a B.A. in English. I worked at various jobs until I got pregnant with my oldest son, Ian, in 1998. Then I became a full-time mom. Let me tell you. It has been the hardest job I've had thus far— 24 hours a day, 7 days a week and there are NO sick days. Before I had Ian, my husband and I moved back to New Mexico. We wanted to move somewhere where I would be able to stay at home with our son and still be able to pay all the bills. Carlos is in advertising and got a job in Albuquerque as an Advertising Research Analyst. Then, in November of 2000, we had our second son, Liam. We love New Mexico, and I keep pretty busy with my boys. I review movies on the side. That's pretty fun, and I get to see movies for free. Those who know me realize how great that is for me! :) I still play golf and am pursuing that a little more now that I have some time. In 2001, my husband went out on his own and is working from home now at his own business. He moderates focus groups throughout the country. Now that he's home, too, that leaves me a little more time to pursue some of my own interests - golf!!!

Well, that about brings us up to date. I am looking forward to this reunion and hope those I knew and who knew me will be able to catch up and maybe take a few walks down memory lane. See you soon!

Current Occupation: Bond/HazMat Secretary for LAPS

Well, I have been pretty busy raising my son Randy who is 10. About six years ago, I met up with an old friend from high school, Tom Granich, and about a year and half later we were married. We now have a beautiful little girl who will be three, going on 23, in July. We spend our time training Randy in Wrestling and Track and Field, and just this weekend he became the NM State Junior Olympic Champion in High Jump! My greatest adventures and moments are with my kids.

Current Occupation: Firefighter

After High School, I joined the navy. I was in from September 1993 to April of 1997. After the navy, I went to the Sacramento area where I did construction type work. After I left Sacramento in March of 1998, I moved back to Los Alamos where I worked as an electrician's assistant for a year. In January 1999 I started working for the LAFD, where I currently work. I am in the process of testing for fire departments in the Kansas City area and will be moving to that area in July 2002.

Family: Brian (husband), Braeden (son), Aubriana (daughter)
Current Occupation: Teacher

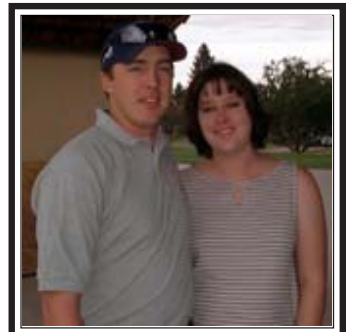

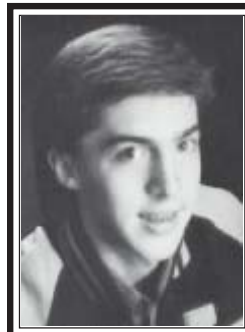

After receiving a BA degree and a teaching certification from Adams State College in Alamosa, CO, I joined my husband, Brian, in Monterey, CA, where he was attending the Defense Language Institute. I spent 1 1/2 years there enjoying the beauty of the area. Our next assignment took us to Fort Hood, TX, where I started my teaching career.

I taught as a substitute for a few months before taking a position as an inclusion teacher at an elementary school. Our two children, Braeden (age 4) and Aubriana (age 18 months) were born in Texas and have become my star students! I cut back my hours to part time tutoring in order to focus on my own children.

Last year, we moved overseas to North Yorkshire, England. We plan to be there for three years and are enjoying the history, culture and travel opportunities. As a military family, we are learning that we can be happy anywhere - as long as we are together.

Current Occupation: Peace Corps Volunteer in Ukraine

Over the past 10 years I have:

1. Built a styrofoam cow with styrofoam guts that really spilled out.
2. Been yelled at by Peter DeFazio (D-OR)
3. Worked in an ecologically clean building with a CFC-free ventilation system, an elevator that used fuzzy logic, and buttons in the bathrooms for sending some sort of distress signal.
4. Seen a truly gawdawful band that later went on to become Everclear.
5. Run the lightboard at a doomed theatre company based in a converted firehouse.
6. Had my car break down in the notorious Venezuelan slum of Catia.
7. Attempted to sell freaky looking stuffed animals made by blind Ukrainian orphans.
8. Been fired from a job for being insufficiently Armenian.
9. Had an assistant. Barely literate, yes, but an assistant nonetheless.
10. Been consistently unable to figure out why my nasturtiums keep dying. What's the deal? Too much water? Not enough? Is their pot too small? They're very moody, those nasturtiums.

E-mail: les314@aol.com
Family: Eric (fiancé)
Current Occupation: Flight Attendant for Southwest Airlines

I worked in Los Alamos for about five years while attending part-time college at UNM. In 1998, I became employed as a flight attendant for Southwest Airlines. I was based in Chicago at first and then moved to the Phoenix base where I've been ever since. I met my fiancé, Eric Ackelson, shortly after I moved. We have been together for two years and have started planning our future. My goals are to acquire my certification as a massage therapist and, hopefully, to be able to continue flying. For now, we enjoy traveling as often as we can.

Family:
Current Occupation: Internet Programmer

My first year in college was at New Mexico Tech in Socorro, where I did great the first semester but dropped out the next, and moved back to Jemez after getting in too much trouble there. I went to UNM-LA for the next two semesters, and spent a lot of time working at the Subway in town. I moved to Albuquerque to attend UNM in the Computer Science department in 1994, and helped run the campus computer pods while I was there as well as some web work for the CS department. I graduated in 1999 with a BS in CS and a minor in Business Management, and began a second degree in Computational Mathematics before I realized I was ready for a break. So I stopped taking classes in 2000 and just focused on work full time, mostly helping small businesses around Albuquerque use their websites better, by adding more database or other trickery behind the scenes rather than flashy graphics. Oddly enough that break coincided with my getting the game Everquest and spending a couple hundred day's time on my characters there, no correlation I swear. ;) In the last year or so I have given up most of my clients in favor of my own business Cyco.Net, inc. where I and a couple of close friends play with a lot of ideas but focus on mailorder cigarette sales. I also help run an underground industrial record label, based in Albuquerque but dealing with bands from all over the world, and spend a lot of time keeping our local and internet radio show alive playing similar music. You can get more info on me or anything I mentioned above at: burnt.netdojo.com, www.dsbp.cx, www.cyberage.cx, www.cycocigs.com, or www.cyco.net. :)
