

NO TRIDENT TROOPS OUT OF IRAQ

Tony Blair took us to war on Iraq to find weapons of mass destruction. There were none. 655,000 Iraqis have died in that illegal war and occupation.

Now our government wants to spend up to £76 billion on new nuclear weapons to replace Trident. Trident has nearly 200 nuclear warheads – each eight times the power of the Hiroshima bomb. That is a potential killing capacity of 320 million. This is criminal hypocrisy.

The majority of the British people has rejected the government's warmongering policies towards Iraq. The majority also rejects nuclear weapons and a 'defence' policy based on the indiscriminate killing of millions.

As Bush moves to commemorate 3,000 US troops dead in Iraq by sending thousands more, CND, the Stop the War Coalition and the British Muslim Initiative are calling this national demonstration on 24th February to say no to these insane policies of death and destruction.

JOIN US ON THE 24TH FEBRUARY!
