CIGRE Tutorials at IEEE TP&C

- First Regular TP&C Presentation of Tutorials based on CIGRE Technical Brochures
- In Calgary we will have presentations on:
 - High Intensity Winds
 - Assessment of Existing Structures
- Additional topics:
 - Life Cycle Calculations
 - Asset Management

Tutorials - Today

- Conductor Safe Design Tension with Respect to Aeolian Vibrations (TB 273)
 - AC Resistance & Thermal Rating of Bare Overhead conductors (TB 345 & 207)
 - Selection of Weather for Line Ratings (TB 299)
-
- Electra Articles and Technical Brochures available at: <http://www.e-cigre.org>
