

## **INTERVIEW WITH S.W. FOSTER OF *THE MESSENGERS OF DARKNESS***

### **Present yourself.**

My name is Stephen W. Foster I am 52 years old. I work in an office at a University. I'm the Grand Master of the Messengers of Darkness.

### **What is the activity of the Messengers of Darkness ?**

My international group exists as an outreach to isolated people such as youths and prisoners, who wish to learn about true satanism and the occult, I write to them.

### **What types of satanis groups exist ?**

There is the church of satan, which is really atheistic rather than satanic, they don't believe in satan, they just use him as a symbol. Then there are the Heavy Metal groups, which sing about evil, but in many cases it is only a pose or an expression of mild rebellion. Then you have the real satanic cults, which are usually youths who commit crimes, it is said that there also exist cults of adults who commit ritual abuse and human sacrifice, but many people doubt that these adult cults exist.

### **How do you apply "Might is Right" to satanism ?**

We live in a society where the victim gets sympathy, in nature, the predatory animals attack without mercy. There is no sympathy for victims in nature. Satanism from this viewpoint is simply a return to nature. The strong rule.

### **Who created the world ? Does there exist an all-powerful "God" ?**

There exist gods, in the bible it does not say that Jehovah is the only god who exist, it says that he is the only god who should be worshipped by the jews. The bible never denies that other gods exist. The world was created by the archangel Michael, who became adam, adam is god.

### **How is evil born ? What about satan ?**

Satan was an angel who wanted men to lack free will, he argued with adam and went to hell with one-third of the angels. He has attempted since then to spoil the earth and create sadness.

### **What is the nature of human beings ?**

A lot of human beings seem good. Nevertheless, the world is full of evil and sadness. I think that most people are sheep and some are wolves.

### **Is "Atheist" synonymous with satanist ?**

In spite of the church of satan, a true satanist believes in satan and cannot be an atheist.

### **Do you believe in the immortality of the soul ? What is beyond ?**

Yes, the soul is immortal, the good go to heaven and the evil go to hell, as you have been told, but the evil are not punished. Hell is not punishment.

### **Define "good" and "evil".**

The sheep defines evil as the wolf, but the wolf defines evil as the shepherd. Why should we believe the sheep instead of the wolf ? The strong rule.

### **Is being a satanist the same as being an occultist ?**

No, occultism has many forms and satanism is only one of these forms.

### **Do there exist ranks within satanism ? How does one evolve ? What is the maximum ?**

Yes, there are various ranks, such as adept, priest, high priest, magus, grand master. You evolve as you learn more. The highest rank is god, if you reach a high level of wisdom, you become exalted into a god and can create your own planet.

### **What is your opinion about Black Metal ?**

A lot of it is only music and type of gothic romantic pose, but it popularizes satanism and spreads the word.

### **Do the police trail satanic groups, what do you think ? And how would you defend satanism ?**

The police have special units which are trained to deal with cults, but I don't know of any satanic group that was ever broken up by the police before crimes were committed. I would defend satanism by saying that it is the law of nature, might is right.

### **Are human sacrifices and animal sacrifices necessary for the rites ?**

I personally don't perform any type of sacrifice. I think some sadistic or crazy people hope that it is necessary so as to justify their blood-lust.

### **Have you published any sort of writing ?**

I have published numerous literary and historical articles and other material. The only "evil" article was one in 1989 calling for a return to barbarism.

### **Is the christian bible a farce ? And satanic bible ? What is your opinion of them ?**

The christian bible is very deceptive and satanic bible is atheistic. You must read the christian bible very carefully to understand what it really says.
