GRAPHIC ART SUPPLIES

Pantone Products

Pantone gives designers and printers complete control over colours. It allows them to communicate and reproduce colours easily any where in the world. Through a series of colour guides, chip books and CDs the designer can communicate with other designers, printers and production people an exact colour scheme and be precise with the colour right from the production stages to the final printing process. Even if you are working on the web you can get Pantone colours in your favourite web authoring and design software.

Pantone Colour Bridge Guide
(Formerly known as the solid to process guide)
This indispensable guide shows a comparison of 1089 solid Pantone colours side by side with their closest four colour process match on coated stock. The CMYK screen tint percentages are listed under each colour.
GGS201 Single guide coated. . \$170.00

Pantone Colour Chip Book.
Each book contains pages of solid colour chips. There are six perforated chips for each solid colour. This makes it easy to select, specify and communicate colour on coated, uncoated or matte stock. Attach colour reference chips to artwork and digital files to ensure that you get a perfect match everytime.
GP1204 Coated, uncoated matte \$420.00
GP1203 Coated, uncoated \$355.00
GB1106 Matte only \$240.00

Pantone Fashion And Home Colour Guide. (Formerly Textile Guide)
The essential ingredient in creating today's products for the fashion, home and interiors market. Contains over 1900 colours. A precise way to select, specify, control and communicate your colour choices.
FGP100 Single guide. \$296.00

Have a project that needs adhesive and/or lamination? Don't have a Xyron?

Forget the overtime hours, the need for office temps and the endless hours of exposure to adhesive fumes trying to meet a deadline. Give Lines 'n Curves a call. We can do the work for you on our inhouse Xyron system. Backing is provided for adhesive applications so it will be ready to mount when you are. You pay a project fee plus the cost of the supplies used. **Phone for a quote.** Rentals also available.

Xyron Finishing Machine

This is the one system that can handle all of your adhesive application needs. Forget the threat of inhaling adhesive sprays with this Xyron finishing machine. No more smell or mess from spray adhesive, rubber cement or wax. This easy to use system instantly applies adhesive without heat or electricity. The unique drop in cartridge system makes it fast and keeps it efficient. It is available in two widths (12" and 25") and the cartridges are available with one of the following materials including lamination!

- Repositionable adhesive
- Permanent adhesive
- Single sided lamination
- Double sided lamination
- One side laminate one side permanent adhesive
- One side laminate, one side repositionable adhesive

In addition to adhesive applications, it can also handle all of your lamination needs with the same unique drop-in cartridge system. This is a must have product if you are involved with doing presentations, comps, mock-ups, p.o.p. displays, photo mounting or packaging.

Hardcover \$62.95

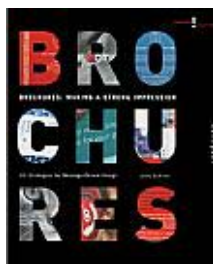

What Is Packaging Design.

The essential design handbook
by Giles Calver
256 pages
Hardcover. \$48.95

Brochures

Brochures, while among the most common job a designer can tackle, are often the most difficult. This book takes an in-depth look at a collection of 85 brochures that proved to be more difficult than most to nail down. These are the ones that have truly pushed designer's creativity and forced them to reach deep.
by Jenny Sullivan
192 Pages
Hardcover. \$62.50

The Best Of The Best Brochure Designs

This book inspires designers with the field's most innovative and creative work. This volume features brochures from a wide range of countries and clients, including corporate brochures, annual reports, product and service pieces and brochures for organizations ranging from education and health care to arts and entertainment.
Rockport publishers
272 Pages.
Hardcover \$58.95

Design Basics

Ideas and inspiration for working with layout, type and colour in graphic design.
by Joyce Rutter Kay
256 Pages
Hardcover \$62.95

Breaking Designers Block

This exceptional book clearly demonstrates the remarkable power that designers have to engender wonder, excitement and a sense of ownership in today's consumers. An invaluable resource for fresh ideas. Breaking Designers Block will stimulate and inspire designers to open their minds and their art to create work that is memorable, thought provoking and visually driven.
501 Graphic Design Solutions.
352 Pages Hardcover \$55.95

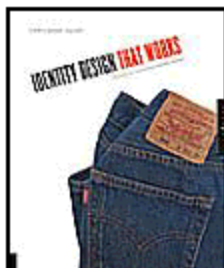

Graphic Designer's Colour Handbook.

Colour is one of the most important building blocks of design, and getting the colour right is a big challenge. This practical and comprehensive book offers a troubleshooting guide designers can turn to for answers. It covers the basics of colour theory, the design process, choosing colour combinations, executing management techniques, designing with colour on the web and printing with optimal results.
by Rick Sutherland and Barb Karg
232 Pages
Hardcover. \$62.50

Identity Design That Works

Secrets for successful identity design
by Cheryl Dangel
Cullen
160 Pages
Paperback \$47.95

**Forms Folds Sizes**

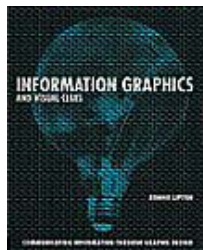

A must have handbook for every designer. No other book provides this kind of practical information such as postal regulations and packaging standards, how to layout a template for a box and standard envelopes sizes for North America. No other book compiles as much critical information in one place. Now designers who are juggling several varied projects can turn to one resource for immediate answers on everything from bindings, bleeds and folds to imaging, paper, typography and much more.
by Poppy Evans
256 Pages.
Vinyl \$41.95

**Identity Design Sourcebook**

Loaded with insider tips for creating a new identity from scratch or redesigning an existing one. In a world where image is everything, this book provides plenty of inspiration from top designers the world over who have made their mark by creating marks.
352 Pages
Hardcover \$55.95

**Information Graphics and Visual Clues**

Through stunning visual images and highly accessible descriptions, this book explains the theory behind visual translation. It walks the reader through examples of graphics ranging from signs and logos to advertising, packaging and events publicity and explains how each is conceived and why it succeeds.
by Ronnie Lipton
208 Pages.
Hardcover \$62.95

**Small Graphics**

Design innovation for limited spaces.
by Cheryl Dangel
Cullen
192 Pages.
Hardcover \$62.95

**Then Is now**

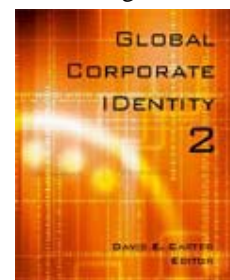

Sampling the past for today's graphics
by Cheryl Cullen
192 Pages
Hardcover .. \$62.95

**Pocket Pal**

The authoritative introduction to the graphic arts for artists, designers, publishers, printers, advertisers, students and buyers of printing. It covers the history of printing, an introduction to the printing process: pre-press, post-press and paper. Specific areas featured include: digital imaging, computer-to-plate, computer-to-plate on press and computer-to-press systems. It also includes colour management, binding and a glossary of more than 550 graphic art terms.
paperback \$49.95

**Global Corporate Identity 2 (HB)**

As a follow-on to his successful 2003 book on global trends in branding and design, David E. Carter has now created a new volume showcasing the past year's best corporate design in the categories of: logos, letterheads, package design, complete identity programs, corporate identity manuals, signage & environmental graphics, and corporate brochures. Examples featured draw from firms around the world-about 70% from outside the United States-all of which show an awareness to the specific challenges of business design in a multinational community. Every designer will find this a must-have reference to keep up with the latest trends in international corporate identity.
By David Carter
336 Pages. \$59.95

**Beyond Logos.**

New definitions of corporate identity. Corporate identity has undergone a revolution. Now the talk is of branding. This book identifies and deconstructs the kind of corporate move that turns a footwear store into a "cathedral" and a cigarette brand into a smoker's retreat. Beyond Logos tracks the rise of the brand and pinpoints the role played by design companies in creating the experience economy - a world in which corporations do not have identities but brand, visions, and big ideas.
by Clare Dowdy

Ken's Comment

To our customers: Thank you for your patronage over the last ten years! And if you aren't already a customer: What will it take to get **your** business?

Service? You couldn't find an art supplier who was more dedicated to getting you what you need when you need it while still keeping the lid on prices.

Service? Have you ever phoned an art supply retail chain and asked for an unusual item? We tried it. The answer we got was, "We don't carry that item." At Lines 'n Curves, when you need a special order, we'll do our best to find a distributor or negotiate with the manufacturer. We'll save you time looking for items. If we can't find it, we'll present alternatives.

Service? Special requirements for your accounting department? We are flexible and willing to work with you.

Service? Want to try a tool like a finishing machine, binding machine or light box before deciding to buy? We can arrange demos, loans and rentals.

We've tested our business philosophy with many of our customers and they tell us that's why they prefer Lines 'n Curves.

We look forward to working with you. Please give us a call.

Sincerely,

Ken Coyne, Owner
