Dear Allison,

I would like to rewrite Writing Project 2 because after our meeting, I realize that I need to clarify more of my points with specific citations. I also need to make a lot of my points clearer because they are too wordy. There are also citation errors to be corrected and a title to be added. My repetition needs to be lessened, but mainly I would like the opportunity to clarify my arguments and make Writing Project 2 a stronger paper.

Your loyal student,

Matt Martin
