

Sigma Lambda Beta Fraternity is an international social fraternity that was founded in 1986 at the University of Iowa. It is based on cultural understanding and wisdom. Most noteworthy is that Sigma Lambda Beta was founded by 18 men of whom 16 were of Latin American or Hispanic origin/descent.

We believe in the principles of fairness and opportunity and in the equality of all men no matter what their race, culture, or ethnicity. Our biggest goal is to see that all of society can realize the importance of these three principles. In order to achieve this goal we all strive as individual Brothers and as an international organization to role model these behaviors and present ourselves in a gentlemanly and educated fashion.
