

How to Back Up your Outlook Files

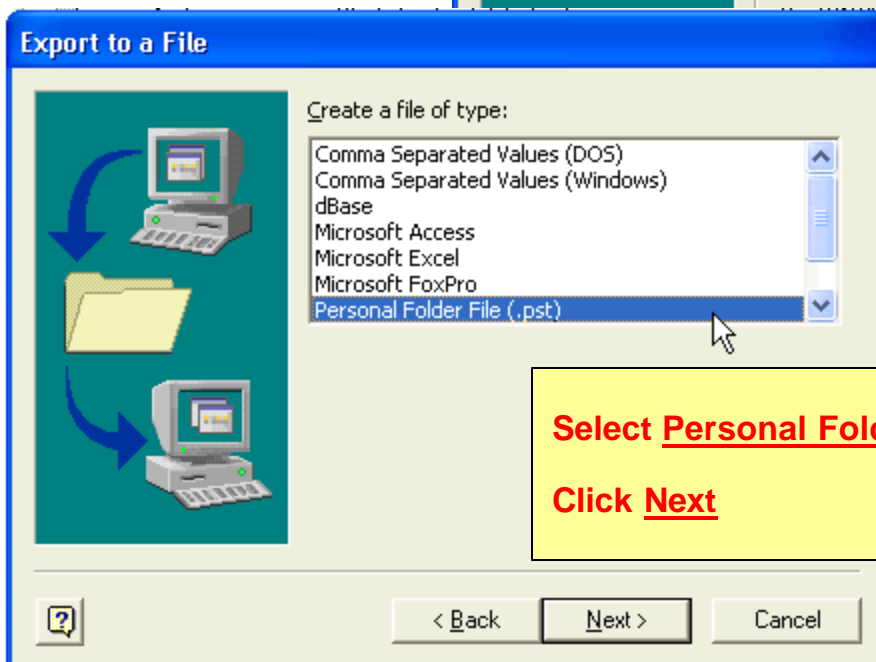

Open Outlook

Go to **File > Import and Export** and follow the prompt of the Import and Export Wizard

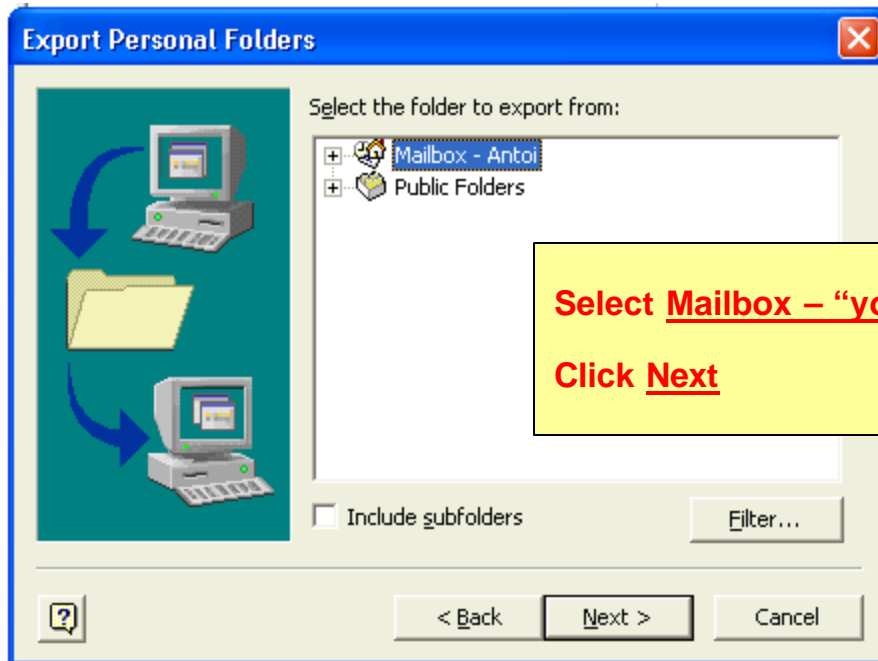

You can also export-import your other files this way

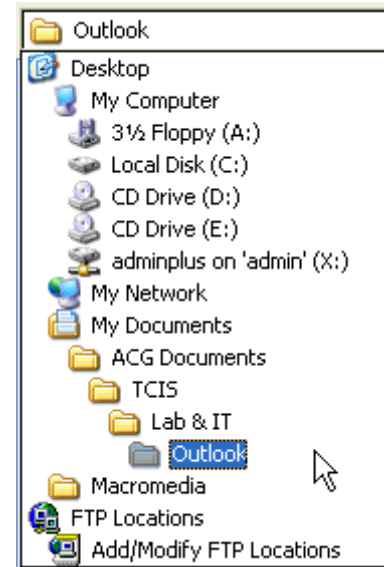

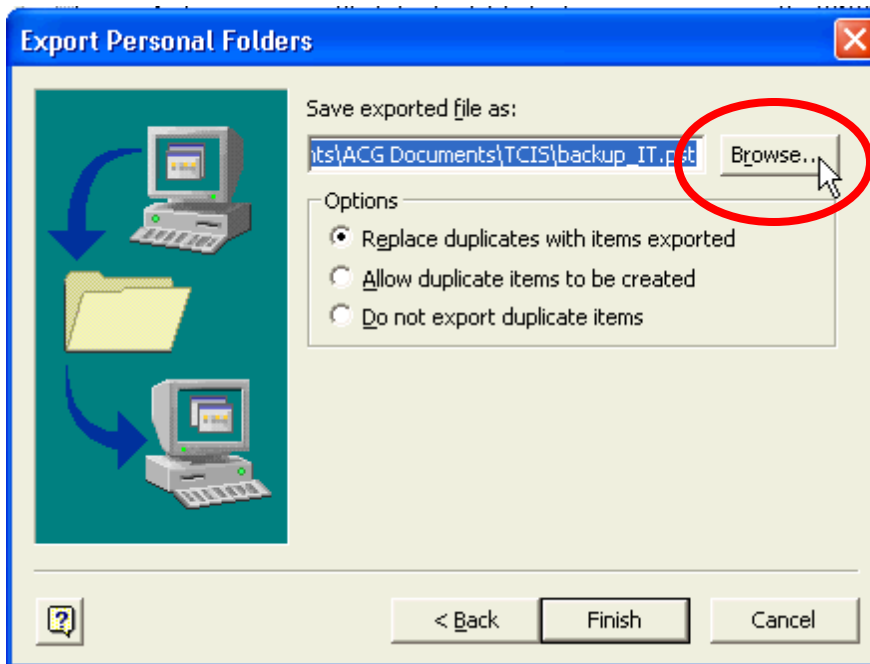

Select **Export to a file**
Click **Next**

Select **Personal Folder File (.pst)**
Click **Next**

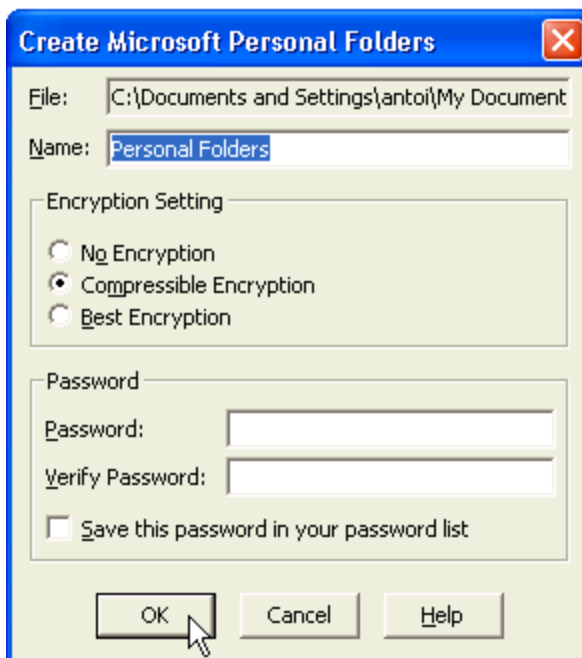

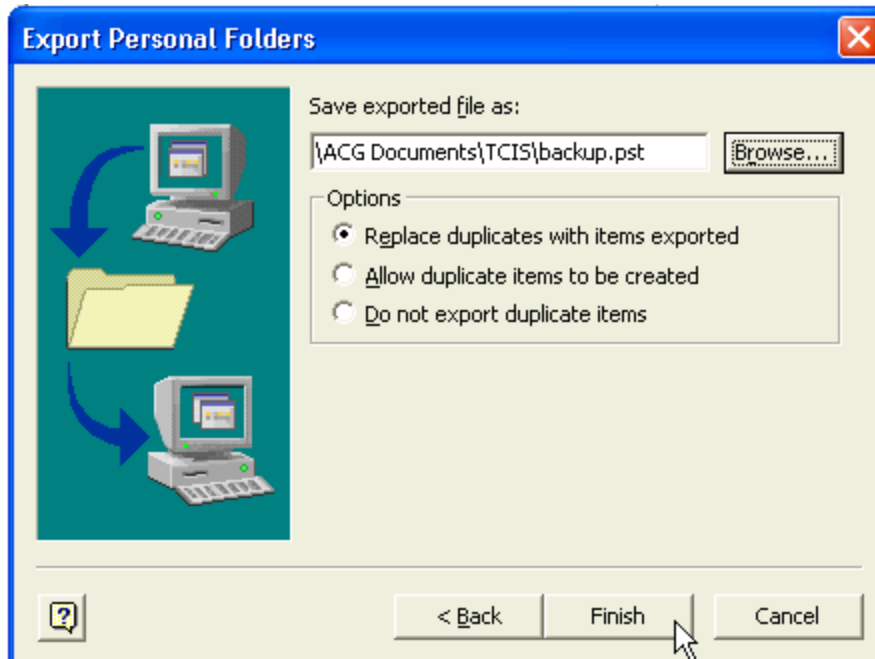

Select Mailbox – “your log-in name”
Click Next

Click Browse to save the file in a specific folder under a name that you can easily remember
Click OK

**You will see the dialog box
“Export Personal Folders”**

Click Finish >

**You will see the dialog box
“Create Microsoft Personal
Folders”**

Click OK

To restore Outlook Mail (that is, install your backup.pst because your files were accidentally deleted) follow the same procedure except this time you select Import
