

Exhibit 3: Comments Written on Community Garden Survey Forms, May 2007

2008 Plot?	No.	Street	Comment
Y	3423	Edgewood	Great idea!
Y	3430	Edgewood	Can help—if I have time then
N	3431	Edgewood	Are we going to check the soil for lead from the lead-based paint that was used for decades on the units? Our unit's soil tested positive so we don't/can't grow anything there.
N	3501	Edgewood	We think this is a wonderful opportunity.... We have done the Washtenaw plots in the past. However, because of all the spraying done at the Village, I would not feel comfortable using the Village soil for growing food. Perhaps when I know the soil is "safe," we would consider being a part of this project. Thank you! Question: How about a soil analysis?
N	3534	Edgewood	Totally disagree. There is already space available at County Farm Park and I'm sure it's going to look messy. We have hard enough time to get people maintaining their yard, why bring this? We know some (not all, I agree, but a few for sure) are going to have a mess.
Y	2314	Fernwood	Can help—if I am still renting here
N	2316	Fernwood	I would be interested, but plan on moving soon so I won't likely be able to participate.
N	2319	Fernwood	I am not sure that I'll be here
Y	2331	Fernwood	Great idea!
Y	2335	Fernwood	Can't help—overcommitted at this time
Y	2344	Fernwood	Can't help—thank you. Great idea!
Y	3405	Norwood	Love the idea!!!
Y	3413	Norwood	How will we define organic?
N	3422	Norwood	Invades on my privacy (which is why I love living here). This would be next door to me. [note: this resident incorrectly thought the garden was proposed to be located on Norwood]
N	3429	Norwood	Would probably not have time myself but in favor for anyone interested.
Y	3381	Oakwood	Great idea!
Y	3412	Oakwood	Yay! Brilliant idea. I'm not biased....
Y	3416	Oakwood	Great! I hope it expands to other areas—organic only!
Y	3501	Oakwood	May be moving in next 5 months
N	3507	Oakwood	I would have little time to work on it.
Y	2263	Parkwood	How about a shrub nursery? Tree farm.
N	2276	Parkwood	I don't want but I think it's a great idea.
N	2329	Parkwood	Interested for the community but I'm not likely to do it myself
Y	2362	Parkwood	A more centralized location would be more appealing to us.
N	2259	Pittsfield	I am not good with plants, may not do it myself, but feel it is an excellent idea that will enhance our community.
N	2269	Pittsfield	Next year would be better.

Comments Written on Community Garden Survey Forms, May 2007 (continued)

2008 Plot?	No.	Street	Comment
Y	2278	Pittsfield	Would we have fences to keep animals out? What about irrigation? Dividers between the plots? If we go organic—would there be a manure delivery—or what? How would the ground be prepared? What will be done this year to prepare the ground for next year's use? What about hay bale delivery? Why not a community garden in each green space? Would it be for just vegetables, or can it be both vegetables & flowers? Are these raised beds? e.g., 4x8 like in the book called "Square Yard Gardening" (or something similar)? Wheel chair accessible? Is the prep work to be done this year?
Y	2304	Pittsfield	Can't help—very little time or ability to commit due to on-call responsibilities.
N	2318	Pittsfield	May volunteer to help plant
N	2322	Pittsfield	No interest, good idea though
N	2402	Pittsfield	Might be moving????
Y	2605	Pittsfield	Enthusiastic
N	2606	Pittsfield	I might enjoy something like this but may find I like it.
Y	2643	Pittsfield	Can help—time permitted. Good idea.
N	2804	Pittsfield	Strong interest but moving
N	2807	Pittsfield	It's a good idea, but I don't have time.
N	2819	Pittsfield	Support whole-heartedly, even though I wouldn't necessarily do any gardening there.
Y	2835	Pittsfield	Good idea!
Y	3421	Richard	Love the idea!
Y	3425	Richard	Great idea
Y	3433	Richard	The closer the garden is to us, the more we would likely be involved (more \$, time, etc.)
Y	3450	Richard	This is an excellent idea!!
Y	3455	Richard	I know nothing about gardening.
Y	3461	Richard	I would love to grow vegetables.
Y	3462	Richard	Great idea!
Y	2609	Whitewood	I'm physically limited so I'm not sure how much actual gardening I can do, but I definitely support the plan for a community garden.
Y	2626	Whitewood	Great idea!!
N	2631	Whitewood	I would support a garden in a different location.
Y	2636	Whitewood	Can't help—I have 2 small children & work, <u>sorry</u> , but am interested in participating.
N	2816	Whitewood	This area is directly across from my unit would prefer the space is left open.
N	2839	Whitewood	No interest, but good idea for others
N			Good idea
N			Thanks, I put my energy into my garden.
N			GREAT IDEA!
Y			Gardens behind units that are not being used for play structures would make great gardens for people around the common areas.
