D. Dutton
General Manager,
Upper Hunter Shire Council

Re- Eviction Notice pending on Aberdeen Rifle Range.

This Club would appreciate an extension of time on this notice as the difficulties this club is currently facing, trying to find an area to re-locate to is proving very difficult.

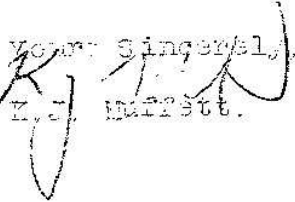

As expected, land sufficient for our needs with the specific safety margins required by the Firearms Registry is not easily found.

Only two such areas have been identified at this time that already have a sufficient template to handle this Clubs activities.

The old Scone Range - along Figtree Gully from the High Transmission Lines to the foot of Scone Mountain existing mounds, mantlett and Stop butts are still intact.

Old Wells Gully Range on Walfertan land extending from high transmission lines into Mount Colonial no existing structure remains

Your assistance in this matter would be greatly appreciated, or a rethink on closing an existing Sporting Facility that has served this Shire for over 100 years and other than Council's desire to sell off this land would do so into the future.

Yours Sincerely,

D. Dutton
