D.N. Dutton.

Acting General Manager,
Upper Hunter Shire Council.

Re: Aberdeen Rifle Range.

Further to your letter dated 10 june 2004, this Club has made some progress on meeting the requirements of the Administrators requests.

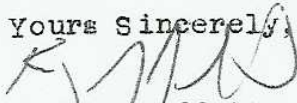

Investigating alternative Locations in the Shires New areas has opened up a complete new Ballgame for us, several areas being identified that will take time and research to ascertain availability and viability.

Preparing a submission for Council on previously identified sites and new areas has stretched our limited resources and may take time to convert from probable to possible locations.

Bearing in mind that these proposals were to be presented to Council after its Elections in September.

Since these Elections have now been postponed until March next year, the Administration of this Club respectfully requests that you consider extending our tenure until after the March Elections, when our finalised proposals can be assessed by a full body of elected representatives of this shire.

Yours Sincerely,

K.J. Muffett.
Captain.
