Unlimited 3 Mins Auto Repairs

The concept of the Recovery System is to have your PC/Laptop recover to your Personal Setting rather than the Default Manufacturer Setting. You can recover your Window System any time and regardless of times when you feel your system is acting abnormally, corrupted or unstable. One of the advantages, your Document Folder is always placed in the D Drive. Your document folder will be auto backup.

Very often and common we have our Windows OS crash, corrupted, virus infection, Spy ware or wrong installation error message and slow down. Resulting the OS is beyond repairs. In IT industry, software problem is not covered in the warranty clause. Meaning, each time you have to pay for the software repair.

In today World Wide Web age and such problem is very common. Averagely it can happen at least once a month. Is a matter of minor or major problem. Most of the times, users will just suffer till it is totally crash. Resulting the existing Window has to be format away and reinstall. You will lost your record in the document folder . The cost of the repair will be ranging from \$95 to \$120 each time.

Normally, an OEM Set, the recovery will take two or three hours to recover the Windows. With your Application & internet and printer setting, the whole recovery process will take you at least half a day to perform.

If you have the pre-loaded Window OS, you have to send the set back to the Manufacturer to do the Window OS recovery. As these is a software issue, you have to pay for the repairs.

Hence, it is always cheaper and the most effective way is to customize your System Recovery Program.

The cost to build a Personal Fast System Recovery

PC System \$360/= per set

Laptop \$460/= per set

(Items include in your Personal Fast System Recovery ,
Your License OS and MS Office , Internet , Printer Setting ,
Antivirus)

Any additional items will be charge at \$125 / items.
