

# T & M STATIONARY ENGINES

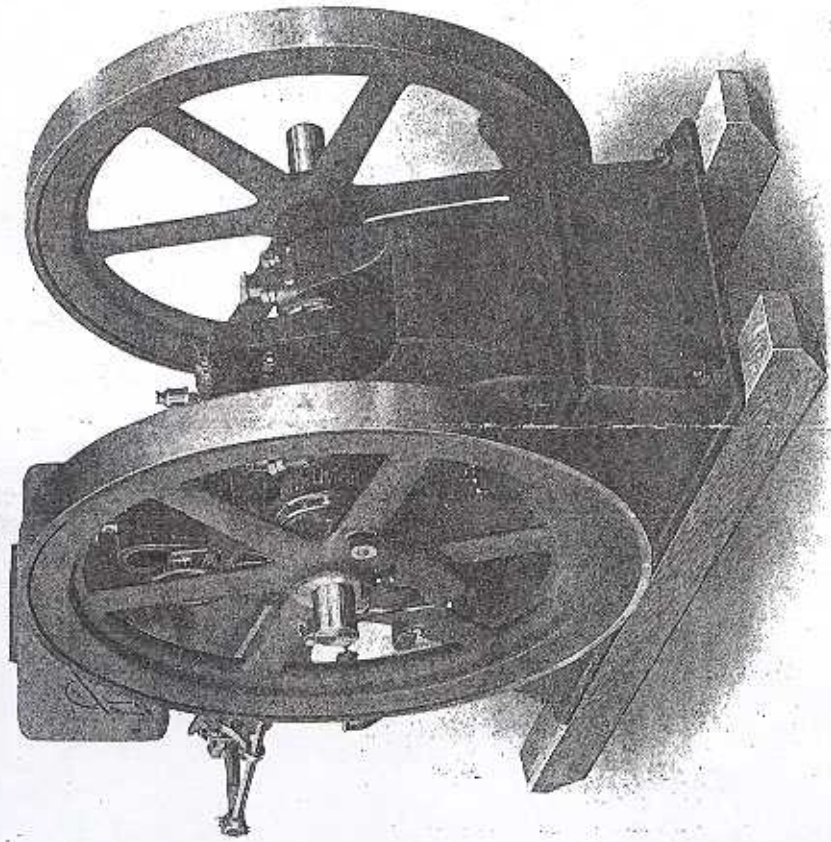

AND EQUIPMENT

T & M QUALITY

CATALOG No 21

TERMAAT & MONAHAN CO.  
OSHKOSH, WIS. U.S.A.

### INTRODUCTORY

Our line of stationary engines need no introduction nor explanation of details to the large number of T & M agents the world over, but for your convenience we give the illustrations, specifications and equipment in the following pages of this catalog.

If you are not familiar with the details of our line you will find in the following pages such further details as will give you a clear understanding of the many important features of T & M engines which have made them popular everywhere.

It is not our aim to see how low priced an engine we can build, but to give the *best value for the price charged*.

The same liberal policy and fair treatment will be extended to all new agents, which has tied our old ones to us for so many years.
