

Here is a bit of a brain teaser for you. It's not as hard as it might first seem. The object is to discover which letter in the alphabet each number in the diagram represents. I have given you a little start, for example, numbers 3, 9 and 22 represent R, T and I respectively; so begin by repeating these letters wherever 3,9,and 22 occur in the diagram. Good Luck, answers are at the back of the magazine.
