

20<sup>th</sup> July 2004

Chief Executive Officer

Logan City Council

To Whom It May Concern

Sanctuary Park Development – Lot 2 on SP168264

The area of the site described as 'park 203' is proposed to be dedicated to the State Government to be included as part of the Daisy Hill State Forest. The dedication is part of an arrangement reached between NCR Securities Pty Ltd, the RSPCA and the State Government. The details of the arrangements are broadly as follows:

- NCR's managing director, Mr Norm Rix is a long time patron of the RSPCA.
- The RSPCA's head office and shelters are presently located as Fairfield. The RSPCA has outgrown these premises and are seeking new premises. They have identified a site in Heathwood which may be suitable for its needs.
- The RSPCA however, cannot afford to purchase the new premises, as the existing premises are owned by the State Government, which are not inclined to sell the existing site, nor purchase the new site for the RSPCA.
- Negotiations have occurred between the RSPCA, myself and the State Government which have resulted in the proposed dedication. Although there is no formal agreement between those parties, it is hoped that the dedication being made to the State Government will assist the RSPCA in its negotiations regarding the move to the Heathwood site.

Sincerely yours,

Norm Rix Managing Director :NCR Securities Pty Ltd.
