BOBBI JO JABLONSKI INTERFERENCE CHART

Whenever Bobbi Jo accompanies her brother Chet or Dean to the ring, she won't hesitate to get involved in the match to help him win. If Bobbi Jo is at ringside for a match involving either or both brothers, she can attempt to interfere in the match. Roll on the chart below when you want Bobbi Jo to interfere in the match for either brother. You can use this chart twice per match.

If Bobbi Jo accompanies any other wrestler to the ring and you want her to interfere in the match, roll on the normal manager interference chart.

Roll	Result
2-4	While the referee is attempting to get Bobbi Jo off of the ring apron, she begins flailing her arm over the ref's shoulder to disguise the chain she's just thrown into the ring to whichever brother is in the ring, who uses it to knock his opponent out. When the referee turns around, the brother is making a cover. OPPONENT ROLLS PIN. If there's no pin, the brother discreetly tosses the chain out of the ring to Bobbi Jo and rolls again on Level 3 Offense.
5-6	Bobbi Jo tries to toss a foreign object into the ring, but the referee may have seen it flying into the ring. THE BROTHER IN THE RING ROLLS HIS DISQUALIFICATION. If there's no disqualification, he can try to hit his opponent with the weapon. He succeeds in hitting his opponent with the weapon on a roll of 8 or lower, plus or minus the opponent's agility rate. If he misses, the opponent takes over on Level 2 Offense. If he hits his opponent, he makes a quick cover. OPPONENT ROLLS PIN. If there's no pin, the brother discreetly tosses the weapon back to Bobbi Jo and rolls again on Level 3 Offense.
7	The referee catches Bobbi Jo trying to toss a foreign object in the ring to chet and confiscates it, then sends Bobbi Jo back to the locker room (remove Bobbi Jo from the match). The "attempt" was only a ruse to pull the referee out of position so that the brother in the ring could deliver a low-blow to the opponent before hitting his finisher. When the referee turns around, the brother has already made a cover. OPPONENT ROLLS PIN, PLUS THE BROTHER'S FINISHER RATE. If there's no pin, the brother rolls again on Level 3 Offense.
8-9	The brother in the ring props his opponent up in the corner and delivers an open-hand chop. Then while he has the referee distracted in the middle of the ring, Bobbi Jo jumps on the apron and chokes the opponent with a chain. By the time the referee turns around, she's released the choke and jumped down off of the apron. The brother rolls again on Level 3 Offense.
10-12	While Bobbi Jo has the referee distracted on the apron, the brother in the ring tries to give his opponent a low-blow, but the opponent recovers and tosses him into Bobbi Jo, knocking her off of the apron. Opponent takes over on Level 3 Offense.
