The Place

Emerald Isle is a 6 acre holiday resort set amidst a little bit of paradise, operational since 1996. It transports you to another realm where enchanting coconut palms sway rhythmically, a balm for tense minds, where you can relax in a home away from home.

Emerald Isle has been designed as a weekend refuge from the humdrum of city life located only 27 Kms from Bangalore on the Old Madras Road, 3 Kms from Hoskote.

When you engage in the experience and pleasure of staying in the resort, you won't feel the need or desire to go outside of the private surroundings.

Standard Bedroom

Rooms

13 double rooms and one independent cottage are available for individuals, families and conferences. This includes 8 air-conditioned rooms.

Our Staff are professional, helpful and courteous. Not because it's their job, but because it is their nature.

Restaurant

Our multi-cuisine restaurant caters to your gastronomical needs. It serves sumptuous South & North Indian and Chinese cuisine to enhance the pleasure of your stay at the resort. Let the chefs delight your taste buds and indulge in relaxed dining.

Room Service takes care of those lazy moments and a well stocked bar to keep your spirits flowing.

AI fresco dining

Relax in the country side

Conference Hall

A conference hall to seat 40 in theatre seating or around 20 in U-seating. Gazebos for that breakaway session under the trees.

The ideal place to record the minutes of your next meeting.

Special packages for overnight and weekend stays.

Swimming Pool

Our refreshing pool is meant to just Relax. Unwind. Chill out. Make your stay a cool splashing success. The jet slide and wading pool will keep the kids in ecstasy.

Experience our world of pleasant distractions, whether you're holidaying as a family, a couple, a group or alone.

Out Bound Learning

Out of the Indian Army comes a training module that has been used with great success in building teams. The need for having good team work and the results obtained can be seen all around us, whether in cricket, the Army or in today's IT world where small groups working successfully together produce great results.

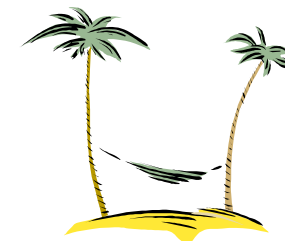

These physical structures include the Dynamic Obstacle course and the Individual Obstacle

Course. Used by professionals, in combination with other tools, many corporates have successfully conducted Outbound Training programmes here.

Rappelling, trekking and similar adventure activities are conducted off-site very close to the resort.

The icing on the cake, is you don't have to kill yourself with mosquito bites, leaky tents and makeshift toilets. The group can stay in our well maintained rooms with running hot and cold water. The restaurant provides hot buffet meals to suit all tastes.

You can now go back to work after an OBL refreshed and ready to meet those targets you thought were impossible.

Dynamic Obstacle Course

Rustic living in a real tent

Rock Climbing
