

Just One More VICTIM OF DIVERSITY

ROBBED - BEATEN - STABED TO DEATH

That's Kevin Jackson on the left, the father-of-two Killed by Asian thugs. He did not realize he that he should move when large numbers of Asians started moving into his District. Kevin soon discovered that real Asians are different from the way they're portrayed on television. Unfortunately, the lesson was learned far too late.

Even when the Locals held a prayer vigil for the victim, there was no national media coverage. The Liberal media understands that reporting stories like this might make the people think twice about "diversity" being "our strength," so they just ignore it.

The time has come to bypass the Liberal elite. Turn off your TV, cancel your newspaper and magazine subscriptions, and get on the Internet! The Internet is the only form of mass-communication not under their control.
