

BSAC Administrators Report 2008

I had heard from Chantal who had previously been our BSAC administrator that there was a lot of paper work involved, but still I was surprised by just how much!

I have though; thoroughly enjoyed my first year on the committee and attending all the committee meetings. It has been a very positive experience filled with a lot of laughter.

I also supported the swimming initiative publicity stunt in the ESTEC canteen at lunch time.

It is not hard to sell such a great club as ours with such super opportunities for divers, snorkelers and swimmers.

I have this year completed the club assistant divers' course and I am now very keen to help instruct in the club. I thoroughly recommend this course to any other qualified diver as it is really worth doing.

Although it is an exhausting week-end, you learn so much.

I am also happy to carry on for another year as BSAC Administrator.

As the joint club editor of our club newsletter, I have also been putting in a lot of hours. Don't forget the next issue is due out after the AGM, so last chance to send in your pictures for the 'watery' picture competition and win the prize.

Also any exciting articles, which you have, we are happy to get.

Thank you to all who have already sent articles in and for all the extremely positive feedback we have so far received.

Regards

Tiree

BSAC Administrator
