AGEAC (Gnostic Association of Anthropological, Cultural and Scientific Studies) is a not-for-profit society of friends that organises cultural activities worldwide. Its members are united by an interest in disseminating the eternal, universal principles of ancient knowledge that are as valid today as they might have been 4,000 years ago. Samael Aun Weor (1917–1977) founded a Gnostic association with the purpose of studying and making widely available the initiatic knowledge that used to be reserved to an elite.
