ACTIVITY 8: ACID RAIN or A HOLE IN MY UMBRELLA!

NAME: 1)…………………………………………………………………………………………………
2)…………………………………………………………………………………………………..

IN THE LAB – session 1

You are an umbrella salesman. You make a lot of money from this job but these days a terrible thing is happening: when it rains, the rain is so acid that immediately ruins the umbrellas and creates a large hole on them. As a result, nobody wants to buy an umbrella from you because they think that it's of low quality! You try to persuade your customers that it's not your fault, but that it's acid rain that ruins them. Write an **announcement** of **100 – 200 words** to be published in the local newspaper in order to inform them about:

- What is acid rain?
- Why is acid rain harmful (except from destroying your umbrellas)?
- What people can do to stop it?

so that they will finally believe that it's not your fault.

You can visit the following site to help you:

www.epa.gov/acidrain/site_students

Take some notes in the space provided below, so that next time you will be able to write your **announcement** next time.

NAME: 1)……………………………………………………………………………………………
2).…………………………………………………………………………………………..

IN THE LAB – session 2

Now write your **announcement** of **100 – 200 words,** based on your notes to persuade your clients that the holes in the umbrellas are not your fault. You should write about:

- What is acid rain?
- Why is acid rain harmful (except from destroying your umbrellas)?
- What people can do to stop it?
