

# Digital Age

In the digital age  
We age faster

In the digital age  
We have sleepless night  
Online, among the web pages  
We never rest our minds

In the digital age  
All of our lives  
Our history is a list  
Of website that we visited

As the computer lives on  
We live on it  
Never to falter  
24/24 hour  
Exact and tireless  
Oh such a wonder

We forget loneliness  
And even our miseries  
To revel in the madness  
Of our drunken ecstasies  
In the virtual world  
No plan to return.

*Summer 2002*
