

## ***Taking Care of You and Me 2003***

Thank you to all Link members and Advisers (listed below) who participated in the 2003 National Link Service Challenge, *Taking Care of You and Me*. This was the first time there has ever been a specific challenge for Link members with a national scope, and we have set an excellent foundation for such challenges to continue in future.

Projects such as the SHE (Sex, Health and Exercise) Sleepover by the Victoria Potluck Link, Calgary's health fair for Pathfinders and Senior Branches, and Da-Hon-Neh Area Link's sessions for all branches in Kingston Division to complete the Bone Building Challenge, plus individual projects, helped to raise awareness of Link within Guiding, and show that Link members can play a valuable support role for Guiders.

Look for information about the 2004 National Link Service Challenge in this newsletter – just in time for you to include in your planning for Link activities this year.
