### Charity Golf Tourney a Success!

I was not able to attend the tournament but I understand it was a great success! I can't wait to hear how much money the event brought in. I'm also looking forward to the day when we can deliver the new wheelchair to Christine. I want to thank all the folks that had a hand in putting on the tournament.

This was not an easy task to pull off. A lot of time and hard work was put into this event to bring it all together.

There are only a few more weeks until Wings Over the Smokies. It will be exciting to see all the new buildings at the fairgrounds. We'll be working in air conditioned comfort this year! And our own couple, Bill and Deidre will be competing for the District Couple of the Year. I feel they have an excellent chance to win!

Until next time,

Randy D.

We're going to Wings over the Smokies. Hope you are coming, too.

# 2009 Wings Over The Smokies

Hello Folks ,

Its almost time for our Wings Over the Smokies Rally and we need your assistance.

Time has come to turn in your Silver wing Ticket stubs and money to Randy so he can get them to Andrew & Vickie Butcher.

Please bring the ticket stubs and money for the Silver Wing Ticket Raffle to the September chapter meeting. Andrew & Vickie will be at our September meeting to collect the stubs and money. It is very important that we get these items turned in before the rally and this will be our last chapter meeting before the rally.

Thank you for all your work and efforts getting these tickets sold as these sales will be the backbone for the support to the chapters this coming year from the District. We are only accepting ticket stubs and money , if you have not sold your tickets , get er done. The chapter your ticket sales supports may be your own.

This months Tech Tip is part two on the Battery Bug Battery Monitor. Several people on the Message Board are praising this product and how it would prevent problems they have experienced. In the September issue of Rider Magazine the author, Eric Trow of the Riding Well article told of his son riding dad's Kawasaki back to college.

Eric received a call from his son that the bike had stranded him on a deserted road just as the cell phone goes as dead as the motorcycles battery. Another great example of a situation that this monitor would have prevented! I plan to purchase and install one.

# **RIDER EDUCATION**

Gerry Grotberg

## ***Two Up = Heads Up***

The person who occupies the back seat of a motorcycle has previously been called a passenger. Now they're called co-riders, and it isn't simply to be politically correct. The word passenger suggests a person who has no responsibility for the operation of the machine; one who is simply along for the ride. While the person on the back may have more freedom to enjoy the scenery without worrying about the technical part of the ride, they still share some of the responsibilities for the safe operation of the motorcycle.

Tempting as it may be, the co-rider should not bury themselves in a book, or take a nap. An unaware co-rider is of no help and may even be an additional danger, if the rider has to brake or swerve suddenly. Their reflex actions (such as to grab the rider suddenly or to lean away) may be exactly the wrong ones.

While it is always preferable that the co-rider has had a motorcycle safety course, even the normal street skills used in everyday driving will help in spotting and reacting to hazards. A good co-rider will know how the rider normally reacts and should be ready to help in that effort. If the rider does not show that reaction, the co-rider should speak up. An experienced co-rider knows when it's OK to move around, and will let the rider know when they will make a move, such as scratching an ankle, that may have an effect on the balance of the bike.

The rider has a responsibility to communicate with their co-rider. They should let them know when a nasty bump is coming or if they want to counterweight a turn. They should inform the co-rider when hard-line braking will be necessary. This way the co-rider can prepare themselves by holding the grab rails and bracing their feet so that they won't slide forward, banging helmets and pushing the rider onto the tank.

Two-up riding is a team sport. That means working together to make the ride fun and safe for both.

Ride Safe,  
Gerry

## Chapter A2 COUPLE OF THE YEAR

**Bill & Deidre Sprinkle**

Greetings from your Chapter Couple,

First of all, **THE GOLF TOURNAMENT WAS A BIG SUCCESS!!!!!!** We want to thank each of you for your participation. The desserts were wonderful. Everyone who participated had a good time, and except for mother nature throwing us a curve ball, the day went off without a hitch. Our own Gerry Grothberg and Sonny Dye who were members of Jim Simpson's team won a flight. Congratulations!!! We will be presenting some more money to Horizon at our September meeting.

Our next project for Christine is to sale chances for the Standard size Quilt Bernie Motley's mother made and generously donated. We will be selling chances for \$5.00 a piece and we will draw for the quilt at our December meeting.

Thank you to the members who came out to the Greensboro meeting to represent our chapter. Greensboro donated \$2,225.00 to Horizon and we gave them another \$2,900.00. We will announce our grand total to date at our September meeting.

Please do not forget your canned goods for the Senior Pantry. Our chapter has been very generous and they are very appreciative of our donations. As fall approaches and the seasons begin to change, we need to continue to remember those in need.

Please have a safe trip to WOS and until next time,

Safe Riding.

Bill and Deidre

**PS Couples competition will be onsite this year. It'll be Friday morning in the log building down in the lower right of the venue. I think I heard someone say 9:00 AM. I believe the log building is called Heritage Building.**
