Happy Halloween

Back from WOTS

Well, another "Wings Over the Smokies" has come and gone. And my record is untarnished nine years of not winning the grand prize! Everyone had lots of positive comments about our accommodations this year. I talked to the management as I was checking out and they are working on a price for us next year. They should be ready to take reservations for next year's rally the middle of October so call in as soon as you can and get it over with. You can always call back later to cancel if something comes up and you can't attend.

Even thought the weather was iffy at times and the new buildings had temperature issues, I think everything went off well. Thanks to all that worked the tables to get all the folks in and out. We had good coverage both days.

And I want to say "Thanks!" to Bill and Deidre for participating in the Couples Competition. It's tough to get in front of a crowd like that and face judges. And all I had to do was introduce them! But they did a fine job representing us as a Chapter Couple this year.

Our next big event will be the "Gifts on Cycles" ride on December 5. I'll be publishing the wish list from the Murdock Center later. This event always gets me in the Christmas spirit. I know it's hard to be thinking of the holidays yet but it will be here before you know it! Ho Ho Ho!

As the year is winding down let's remember the can food drive we are having this year. Donations have been coming in at each meeting every month. We'll be giving away that \$100 at the December meeting.

Until next time,

Randy D

RIDER EDUCATION

Hydroplaning Or Loss of Traction? You Decide

Hydroplaning is defined by the MSF as the buildup of water under the tire creating a loss of traction. This could happen to either tire. Two weekends ago I was teaching an MSF BRC at Surry Community College. I rode up to Dobson Friday evening about 5. I had listened to and watched the weather reports for the weekend and it was supposed to be rain free and pretty all weekend. There was only a 20% chance of scattered showers Friday night so I was living fat,dumb, and happy. While we were teaching the classroom portion, a front moved in from the North and moved down 601.

It must have dumped a pretty good amount of rain. When we dismissed the class at a about 9 pm everything was wet. I was riding down 601 on my way home. It was not raining, but the ground was wet, though there was no standing water. I was almost to I-40 (Bernie you know where that is don't you?). (YES-- About 100 miles from Gatlingberg!!)

I started into a sweeping left hard turn. My speed was about 45MPH (really). The new asphalt was shiny, but again, I saw no standing water. I moved to the apex of the turn and I saw oncoming traffic. I decided to move to the center third of my lane. I applied a slight pressure to the right hand grip and my whole world began to change.

I realized that the rear tire had lost traction and was starting to swing hard right. Just as I was going to counter by tuning into the slide, the front tire lost traction. I was sliding out of control forward and right at the same time. Yes, my thought at that point in time was - THIS IS GOING TO HURT! I was out of the right lane and knew I was about to be on the grass when, from out of nowhere, a right turn lane materialized. The entire time I was slowing because instinct had made me roll off the throttle. This additional asphalt gave me room to regain traction and stop. No Pain or damage. Neither the bike or I ever came off of the tires. I would love to be able to tell you that it was my superior riding skills and extraordinary ability that saved me from injury and my bike from damage, but that would be a lie. It was 100%, pure, God given LUCK.

When I stopped, I put the side stand down, turned the engine off, took several deep breaths, and waited for my butt cheeks to relax enough to release the seat, so I could get off. I walked back to look at my path of travel and found a strip of water, maybe a 32nd of an inch deep and about 15 feet long, right where I started to move right. Because the bike was leaning slightly left to make the turn, some of the traction was used for driving forward, some was used for turning left, and I used more to start the bike to the right. Did I over use the available traction? Or when the bike went through the strip of water, did it start to Hydroplane? Food for thought, I guess I may never really know what caused the slide, but it's fun to think about now.

RIDE SAFE!

Gerry

The Tech Guy Tim Pennington

Before the ride to WOS, I had some service work done at Cycle Center. David was telling me that a lot of problems were showing up because of " bad fuel"! Some things we may try doing:

- 1. Change the fuel filter
- 2. Try using brand name fuels

3. Run some fuel system cleaner with fill ups every so often.

Chapter A2 COUPLE OF THE YEAR

Bill & Deidre Sprinkle

Greetings from your Chapter Couple,

We hope everyone had a safe ride home from Wings Over the Smokies. We had a wonderful time, but we did not hardly stop while we were there. We came home and took a 2 hour nap before unpacking. We were proud to represent A-2 in the couples selection and enjoyed participating in the process. It was definitely a learning experience. We are happy to announce that Evan and Cindy Parton from L2 in Mooresville is our 2009-2010 District Couple. They asked us to have lunch with them on Saturday and they have some exciting plans for the upcoming year. We were pleased to be asked by our new District Couple to help develop some of their ideas. Cindy and Evan are a wonderful couple and they will do a fantastic job for the Couple's Program. We were also approached on a National Level to help at Wing Ding. We are looking forward to representing NC-A2 at our National Rally. Wow! We can not believe all the wonderful experiences we had at WOS.

For now, your couple still on the road for A2,

Bill and Deidre Sprinkle, Your Chapter Couple

Thank You so much

Breakfast Casserole

1 1/2 Ib sausage (Jimmy Dean Regular)
10 oz sharpe cheddar cheese (pre-grated packages cheese can be used)
4 eggs
2 1/4 cups milk
1 package herb stuffing mix (2 - 2 1/2 cups)

Spray 9 X 13 pan with pam. Put enough stuffing to cover bottom of Pan. Brown sausage. Drain, spread over stuffing. Cover with grated cheese. Mix eggs, milk, salt, pepper. Pour over layers. Cover and refrigerate Overnight. Bake at 350 for 45 minutes. Cover casserole with foil Half way thru baking to keep cheese from getting to brown. Check to make sure done, but don't overbake. Serves 6 to 8.

From Betty

What a great time we had at Wings Over the Smokies 2009 Thanks to everyone who worked pre-registration at Wings over the Smokies

<u>A note from Bernie & Dottie Motley</u>: Thank you Chapter A2 for all your dedication to the chapter to help Randy with the work schedule at Wings Over The Smokies: When the workers list came out there were Only 2 members signed up to work Pre-Registration on Thursday morning (Randy & AC Pennington).

A2 members came out in force both Thursday and Friday to Show the Rally visitors that you really cared about them and you did your job to serve them their Pre- Registration packets with grace and friendliness. The Motto for NC is: In North Carolina, We Can Do It and Chapter A2 once again answered the call and showed the NC District, Region N and GWRRA National that A2 can do it !

There was only one small glitch that occurred during the process of giving out Pre-Registration packets and we were able to clear it up without any serious problems.

Thanks again for all your hard work to help the visitors to the rally have a Good time and make the 2009 Wings Over the Smokies another successful rally.
