# Cheval Mirror

## **Cheval Mirror Directions**

### **Materials**

The entire mirror is made of Oak and stained with Minwax Golden Oak

One set of Mirror Lugs

Carved Wooden Decoration for the top

4 Biscuits size 10 (need to be trimmed)

**VERIFY ALL DIMENSIONS FIRST, DRY FIT ALL PIECES BEFORE ASSEMBLY**

### **Feet**

Overall dimensions are 20" long, 4" high and 3" wide (I used 2 pieces of 1 1/2" thick boards glued together)

All edges are square

### **Legs**

Overall Dimensions are 38" long (includes Tendon), 2 1/4" wide and 1 5/8" thick

I used a 1/2" Roman Ogee bit on all edges (Sides and Top)

### **Cross Piece**

Overall Dimension is 24" (includes Tendons), 2 1/4" wide and 1 5/8" thick

I used a 1/2" Roman Ogee bit on all edges

### **Mirror Frame**

Bottom Over all dimension is 22" long, 2" wide and 1 1/8" thick

Sides Over all dimensions are 56" long, 2" wide and 1 1/8" thick

Top Over all dimension is 22" long, 4" wide and 1 1/8" thick

I used a 1/2" Roman Ogee bit on all inside edges and rounded over all outside edges

All Joints are 45° Butt joints with #10 Biscuits and glue (watch the biscuits they are too long and need to be trimmed)

### **Mirror**

Over all dimension is 54" long, 19" wide and 3/16" thick

I used a 1/8" thick backer board for added strength of the same dimensions

**USE AT YOUR OWN RISK, THIS DRAWING IS FOR DISCUSSION PURPOSES ONLY**
