## **ADJUSTED RANKING OF MEDAL-WINNING NATIONS**

## WHAT IS THIS?

The first column is the International Olympic Committee ranking of nations who earned more than nine medals while competing in Beijing during August of 2008. The last colum is the Adjusted ranking of nations who earned more than nine medals. Jamaica earned one medal for each 252,739 of its people. The USA earned one medal for each 2,762,042 of its people. China earned one medal for each 13,300,446 of its people. By my reckoning, Jamaica is, by far, the number one country in this competition.
