

ANN REDDICK

According to an 1834 list of emigrants from County Derry, Ireland, Ann Reddick was 20 years old.

There is no further information concerning Ann. Because she was listed with Daniel and Mary Reddick and others that we know were their children, she was probably also their daughter. If she was, she may have died before 1866 since in his will, Daniel mentioned three daughters, all married, but not Ann. On the other hand, his will did not refer to his daughter, Sarah Mulvagh, who is thought to have been alive at the time of his death.
