Adapun gelar yang mereka berikan adalah gelar THE GOOD JOB-RESEARCHER IN HARVARD UNIVERSITY-USA. Gelar ini diberikan terhadap saya(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) dihubungkan dengan prestasi-prestasi saya(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) baik di dalam negeri maupun di luar negeri, beruikut adalah prestasi-prestasi saya(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI): (MAAF SELANJUTNYA DALAM BAHASA INGGRIS KARENA DIRASA PERLU)

1. I am the founder of RANTM, RANTM is abbreviation of Riket Atep NurdjamanTM or Riken Atep NurdjamanTM or RAN-Conector Hands or Re-establish Interconnection Dock Extra Term Atep NurdjamanTM or-lastin is Re-establish Interconnection Dock Extra Numbers Atep NurdjamanTM, has been accepted as NEW TERM by do Institut Teknologi Bandung (ITB) policy, ITB In English is Bandung Technology Institute in Bandung in Indonesia Country, Address: Jl. Ganesha 10 Bandung City, West Java, Indonesia Country. ITB has been lead as the most famous university in Indonesia Country and also as no.1 top university in Indonesia country. The accept of theory about RANTM who should involved in determination the structure of organic compound by ITB (Bandung Technology Institute) has been undenied by the others, that is all of lecturer and researchers and also editors of journal in fields of organic chemistry (last number of expert in fields of organic chemistry is around 1500 persons who got and know my scientific work paper who tell about RANTM (my(Atep NurdjamanTM) research finding). ITB or Bandung Technology Institute represent by Department of Chemistry FMIPA, in duty-incharge to discuss is group of Kimia Organik Bahan Alam (KOBAl), in English, Natural Product Chemistry (NPC) (discuss about RANTM for clear in your thinking see all of my explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
2. I am who the one can eliminated anykinds of impurity matters who appears on ¹H NMR and change term as RANTM (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
3. I am who the one can determined that anykinds of peaks who appears on ¹H NMR beside the existing the strong absorption peaks (peak of CH₃, peak of OCH₃, peak of CH₂, peak of CH, peak of OH, peak of N, and peak of Cl, and also peak of Br, and also too peak of S, and too others) is not spinning side bands or even impurity matters, and the peaks I call as RANTM, I am the founder as in original founder, I am Atep NurdjamanTM, DRTM (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
4. Based on RANTM, I found the connectivity between water or H₂O peak with the other of peaks, and determined that water or H₂O is part of organic compounds (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
5. Based on RANTM, I can draw and you also exact how the water or H₂O build become mass structure in density (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
6. I am the founder of Theory Connectivity of Element AN; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
7. I am the founder of Theory Connectivity of Structure Organic Chemistry AN; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
8. I am the founder of Theory Connectivity to Determined Chemical Reaction on Atep Nurdjaman Laws or Chemical Reaction for-on Atep Nurdjaman; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
9. I am the founder of missing of peak in ¹³C who can revealed by do doing DEPT NMR experiment, usually the researcher doesnt realize that missing of peak should determined in do build the structure of organic compounds; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
10. I am the founder of peaks who appears in ¹³C NMR who has chemical shift below zero and should determined as part of organic compound, especially found through HMBC (Heteronuclear Multiple Bond Coherence)
11. I am the founder of D₂O peaks, before we know as OH peak but the fact that is D₂O peak; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
12. I am the founder of Cl (chlor) peak; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
13. I am the founder of Br (bromine) peak; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
14. I am the founder of S (sulfur) peak; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)

15. I am the founder the relationship between vapor matters and the structure; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
16. I am the founder the relationship between toxic matters and the structure; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
17. I am the founder who can revealed the wrong and mistake(s) who has been made by researcher who publish Butadiene sulfone in incorrect structure, and I success to rebuild the structure and correct; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
18. I am the founder that TMS as internal standard in NMR measurement is incorrect for as standard for revealed the existing of H (Hydrogen) in compounds, why because not easy to found H (Hydrogen) in shape of gas not as compounds as internal standard, meanwhile the others hand in do same is He (Helium) gas easy to becoming as internal standard, why.....you have answer in your minds and also in your lab..
19. I am the one who give suggest that we should measure not based on existing H or C or O only but also we should measure our compounds based on every nuclei that can detected in NMR (Nuclear Magnetic Resonance)
20. I am the founder of New Perspective of COSY and NOESY (COSY is Correlation Spectroscopy and NOESY is Nuclear Overhauser Effect Spectroscopy) who can easily to explained how millions of molecule connect to each others in drawing; (see explanation on my-Atep NurdjamanTM scientific work paper, has been publish previous)
21. I am the founder who can revealed the correlation of water or H₂O who connect to others structure by do doing dry up (dry up method, I call) and also by do NOE (Nuclear Overhauser Effect), the result is definitely as New Term for revealed especially the existing of water or H₂O in compounds. Dry up methods should carry for do in 12-24 hrs in desicator with pump bearing and also silica gel inside as apparatus, before manage mentioned before should doing dry up by extractor for 2-3 hrs. The result both is water or H₂O peak still remain in compound even we dry up more long in time and H₂O peak got influence from other of peak when treated through NOE experiment.
22. I am the founder who can made NaCl (salts) from H₂O (water) by clone process which not involved chemical added during process of clone, I can make Na from H₂O (water) by clone process which also not involved chemical added during clone process. This clone process is fundamental for made others of element, and next on is we can made food direct from water (H₂O). Untill now, this creation can not adapted by researcher I think, why, because they don't know how to do experiments made new clone, I think now they study and try to revealed how to made NaCl (salts) from water or H₂O. I hear from someone that someone has been success clone of compounds from water or H₂O, source of compounds for clone is from plant, but unfortunately, I think, that someone un success clone of salts or NaCl from water or H₂O.
23. Common Theory of Determination of The Structure of Organic Compounds and NEW THEORY of Determination of The Structure of Organic Compound Who Involved RANTM in term applied by me-myself(Atep NurdjamanTM) and the different between will make you understand clearly, I AM EXPERT TO EXPLAINED BOTH
24. I found correlation between numbers of value (α)_D and changing of the structure heading to other of structure, just like I explained in this scientific work paper

Perlu diketahui bahwa saya(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) tahun ini (2007) pernah mengalahkan NOBEL FOUNDATION di Swedia dan Norwegia dengan Alliances-nya dalam bidang kimia organik khususnya dan kimia umumnyam perihal TEORI BARU DALAM PENENTUAN STRUKTUR SENYAWA KIMIA ORGANIK, MUNGKIN SAUDARA KENAL DENGAN STRUKTUR FULLERENE ATAU STRUKTUR NANO TUBE YANG MENDAPATKAN HADIAH NOBLE PRIZE, PENELITIANNYA MENDAPATKAN HADIAH NOBEL KARENA BERHASIL MENEMUKAN STRUKTUR SENYAWA KIMIA ORGANIK BARU YANG SEPERTI TERSEBUT SEBELUMNYA. NAH SAYA(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) TELAH MENEMUKAN TEORI BARU UNTUK MENENTUKAN SENYAWA KIMIA ORGANIK SECARA UMUM YAITU DENGAN DITEMUKANNYA RANTM DI DALAM NUCLEAR MAGNETIC RESONANCE (NMR). PENEMUAN SAYA(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) INI MENGUBAH WAJAH KIMIA ORGANIK DAN KIMIA SECARA KESELURUHAN, UPSIDE DOWN, DIMANA SELURUH STRUKTUR SENYAWA KIMIA ORGANIK YANG DITEMUKAN SEBELUM DITEMUKANNYA RANTM OLEH SAYA(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI), HARUS DIRUBAH DAN DITENTUKAN DENGAN TEORI RANTM, TERMASUK DI DALAMNYA STRUKTUR SENYAWA KIMIA ORGANIK FULLERENE DAN STRUKTUR SENYAWA KIMIA ORGANIK NANO TUBE YANG TELAH MENDAPAT NOBEL PRIZE.

NOBEL FOUNDATION TIDAK BISA MEMPERTAHAKAN PENDAPAT DAN PENILAIANNYA TENTANG FULLERENE DAN NANOTUBE MELAWAN TEORI SAYA(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) SECARA KHUSUNYA, DAN SECARA UMUM TIDAK DAPAT MEMPERTAHAKAN TEORI KIMIA ORGANIK YANG BERLAKU SEKARANG MELAWAN TEORI KIMIA ORGANIK SAYA(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) YANG MELIBATKAN RANTM DI DALAMNYA .

JUGA NOBEL FOUNDATION TIDAK BISA TEORI KIMIA YANG BERLAKU SEKARANG MELAWAN TEORI KIMIA SAYA(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) YANG MELIBATKAN RANTM DI DALAMNYA .

Demikian pemberitahuan saya(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI), silahkan dibaca hati-hati secara keseluruhan supaya tidak ada kesimpangsiuran. Untuk lebih jelasnya mengenai hasil-hasil penelitian saya(Professor. DR (Doctor)TM. ATEP NURDJAMAN, SSI) dan prestasi saya(Professor. DR (Doctor)TM.
