

Sound recorder on the Coby

Use microphone on the Mac

Manual that came with the Coby

17. iTUNES HELP

How to erase podcasts on iTunes

tab under Preferences, and delete the podcasts that way - look for a second checkbox selection option for podcasts because under the iPod/Music tab I had already checked 'Only update checked songs'.

To see where a file was purchased, select it, choose File > Get Info, and then look in the Kind field. Files purchased from the iTunes Store end in ".m4b." Files purchased from outside sources such as the Audible website end in ".aa."

19. Interesting – haven't tried these yet

iPod Music Liberator

The iPod Music Liberator is a full-featured music-management utility that allows you to copy music from your iPod to a Mac or PC. It supports Mac OS X and Windows XP, 2000, NT and 98

iPod Access

iPod Access allows you to copy music from your iPod to a Mac or PC. It supports Mac OS X 10.1 or later and Windows XP or 2000.

20. VIDEOS

The higher end MP3 players have a screen so you can watch videos of bands playing music and actual movies

If you get your videos off of iTunes there is no need for a converter, otherwise, you'll need to convert the files to play on an MP3 player.

- Click here for one converter <http://www.ipod-video-converter.org/> This program converts all formats - DVD/VCD and AVI, MPEG, WMV, RM, RMVB, DivX, ASF, VOB to video files in your iPod with few clicks. The program is a freeware and does not contain any form of malware, including but not limited to: spyware, viruses, trojans and backdoors.
