GENERAL INSTRUCTIONS

PITCHING

NO STARTER GOES LONGER THAN 11.2 INNINGS

Try to get 6 innings from all starters. In the 6th when score is -2/+3 and one run has scored go to the pen, 7th inning when first runner gets in scoring position go to the pen. Exception is **Young** who pitches until of course fatigued. The bullpen has enough innings but is not strong.

Any starter pitching a shutout stays in until he is scored on.

RELIEVERS:

B.J. Ryan is the closer. He pitches in save situations only. **Bennett** is the alternate closer and set up pitcher from the 7th inning on.

Rapada, Castillo and **Wuertz** are the late inning relief pitchers. They can come in to pitch in the 6th, 7th and or 8th inning. At least 1 will be up each month. They may be brought in earlier if the middle men can't hold the lead or have to come out of the game.

Burnett, Rupe and **Villarreal** are the middle relievers. They can pitch from the 3rd inning through the 6th.

Jo. Peralta is the early relief pitcher. He can pitch in blow out situations, from the 1st inning on. He can also be used late in the game when the starter has fatigued and the lead is 5 or more runs. If the lead shrinks to 3 runs or less then bring in the usual set up pitchers or the closer.

BASE RUNNING/STEALING

All (F) players will try for the extra base. Send runners in the 1st-3rd inning when adjusted number is 27+, in the 4th-6th inning adjusted number 26+, in the 7th inning through the end of game adjusted number 24+. Any question or doubt, consult the Adams chart. In the computer game send any runner who is "well around" the base.

STEALING

No steal attempts when behind or ahead by 4 or more runs

G. Blanco and **W. Harris** are the most eligible runners. Use the steal any time to get the game tying or go ahead run into scoring position from 7th inning on. Also see Hit and Run.

HIT AND RUN

The players doing the running can only be: [W. Harris](#) and [G. Blanco](#). I prefer this option over the straight steal but with this team there won't be a lot of either this year.

DEFENSE

Hold all (F) runners with less than two outs. Do not hold any player who can not steal.

In the 1st thru 6th inning play the infield deep to go for double play

From the 7th inning on play the infield in to try and cut off any runs to keep the score within +3 or -3 runs.

Always use the highest rated player as replacement in case of injury or pinch hit.

SACRIFICE

Sacrifice from the 6th inning or later to get the game tying or winning run into scoring position.

Anyone can sacrifice.

NO SQUEEZE PLAYS

PINCH HITTING/PINCH RUNNING

Pinch hit from the 8th inning on when the game tying or winning run is in scoring position. Use best available batter off the bench who puts pitcher at greatest disadvantage.

Pinch runner should be an (F). Use any available position player first then any (F) starting pitcher. There may be times when an (F) is not available as most will already be in the starting line up. If that's the case then use the highest speed available. Only pinch run when it represents the game tying or winning run.

DEFENSIVE REPLACEMENTS
