

HOOPTIE

[INTRO]

[VERSE]

Hey there Rust Bucket
Chugging down the street so worry free
Nobody you meet could ever
See the emissions there
In the air
Hey there Rust Bucket
Why do all the tow trucks pass you by
Could you be sold if I try
Or must you stain my drive

[2'nd VERSE]

You're always muffler popping
But never stopping to buy
So shed those rusty fenders
And fly a little bit

{CHORUS}

*Hey there rust bucket
There's another heap parked inside
Bring out all the spares you hide
And oh what a change there'd be
The world would see
A new Hooptie ride*

HOOPTIE

[BRIDGE]

[FINAL VERSE]

Hey there Rust Bucket
Drag'n your frame along the street
What's stuck on the seat
You can't always run anyway
I'm not so scared of painting
And replacing your belts
It's time for a breaking down
On the curb
This is it

{CHORUS}

[END]

Hey there Rust Bucket
Hey there Rust Bucket
Hey there Rust Bucket
Hey there Rust Bucket
