

Exam : 9A0-041

**Title : Adobe Acrobat 7.0 Professional Print
Production**

Ver : 05.28.07

QUESTION 1:

How do you move a tab from the navigation pane to its own floating panel?

- A. Control-click (Windows) or Command-click (Mac OS) the tab
- B. choose View > Navigation Tabs > Reset Tabs
- C. Alt-click (Windows) or Option-click (Mac OS) the tab
- D. drag the tab from the navigation pane to the document pane

Answer: D

QUESTION 2:

What is the purpose of the ISO standard PDF/X workflow?

- A. It is used for the creation of PDF documents with multimedia content.
- B. It assures that prepress information is correctly represented in a PDF document.
- C. It is a standard for archiving metadata.
- D. It is an Internet standard for sending fax documents.

Answer: B

QUESTION 3:

What is the purpose of the permissions password in a PDF document?

- A. It sets the document so that it can be printed.
- B. It enables a user with the password to reset the permissions in a protected file.
- C. It unlocks the document for viewing.
- D. It ensures that the file is accessible to the visually impaired.

Answer: B

QUESTION 4:

You create a document that contains complex overlapping transparency of pixel-based images. Which Highlight option in the Flattener Preview previews objects that are the source of this transparency?

- A. Transparent Objects
- B. Rasterized Complex Regions
- C. All Affected Objects
- D. Non-Transparent Objects

Answer: A

QUESTION 5:

How should you respond to highlighted areas indicating that a rich black object will overprint in a PDF document?

- A. adjust the Trapping settings in the Output Panel
- B. deselect Rich Black in the Output Preview dialog box
- C. convert spot colors to process in the Ink Manager
- D. convert rich black to process black in the source file

Answer: D

QUESTION 6:

You want to create a link to a different file from an existing bookmark in a PDF document. Which process takes you to a dialog box that will enable you to do this?

- A. right-click (Windows) or Control-click (Mac OS) the bookmark and choose Set Destination
- B. double-click the bookmark name
- C. select the bookmark and choose Set Destination from the Options menu
- D. right-click (Windows) or Control-click (Mac OS) the bookmark and choose Properties

Answer: D

QUESTION 7:

You have created a presentation in PowerPoint. You want to post it on the Internet, where it will be accessed by members of your traveling sales force. Which Application Setting in the Adobe PDFMaker dialog box should you select to make this document available to the largest number of salespeople?

- A. Enable Accessibility and Reflow with Tagged PDF
- B. PDF Layout Based on PowerPoint Printer Settings
- C. Convert Multimedia to PDF Multimedia
- D. Save Slide Transitions in Adobe PDF

Answer: A

QUESTION 8:

You create a PDF document that you want to use as a proof. You also need to downsample the file to 72 pixels per inch to create a small file that you can email. You notice that monochrome images in the PDF document look jagged along curves and diagonal lines. Which setting should you change?

- A. Sampling; use Average Downsampling instead of Subsampling or Bicubic Downsampling
- B. Final Resolution; resample to 100 pixels per inch instead of 72
- C. Compression; use CCITT Group 3 instead of ZIP, CCITT Group 4, or Run length
- D. Anti-Alias to Gray; use 8-bit as a value instead of 2-bit or 4-bit

Answer: D

QUESTION 9:

Which two actions will open/close the navigation pane? (Choose two.)

- A. click the Active Navigation tab
- B. right-click (Windows) or Control-click (Mac OS) the Active Navigation tab
- C. click the Hide Toolbars button
- D. click the Single Page button
- E. click the vertical bar that separates the navigation pane from the document pane

Answer: A,E

QUESTION 10:

You are participating in an email-based review. Which action will result in an untracked document?

- A. choosing File > Save As
- B. adding comments in Adobe Reader
- C. reviewing documents in Acrobat 6.0
- D. choosing File > Save

Answer: A

QUESTION 11:

Which two file formats can be used when adding a background image to a PDF document? (Choose two.)

- A. JPEG
- B. EPS
- C. PDF
- D. GIF
- E. PNG

Answer: A,C

QUESTION 12:

You are creating a PDF file for the purpose of proofing. You want the PDF document to be as small as possible. To accomplish this, from the Adobe PDF Settings dialog box you _____.

- A. deselect Subset fonts in the Fonts tab
- B. deselect Embed Thumbnails in the General tab
- C. select Off in the Sampling pop-up menu for Color Images, Grayscale images, and Monochrome images in the Image tab
- D. turn Anti-Alias to Gray On in Monochrome Images in the Image tab

Answer: B

QUESTION 13:

You are working on an Adobe Acrobat project and you want to email a PDF document that you worked on yesterday to an associate. What should you do to locate the PDF document and send the email?

- A. choose Edit > Find to locate yesterday's file, then choose File > Email
- B. choose File > Organizer > Open Organizer, in the History pane click Yesterday, select the appropriate file and click the Email button
- C. choose Edit > Search to locate yesterday's file, then choose Document > Attach a File
- D. choose Edit > Find to locate yesterday's file, then click the Email button on the toolbar

Answer: B

QUESTION 14:

You are adding comments to a PDF document.
What should you do so that the comment pop-up automatically displays each time you add a new comment?

- A. choose Edit > Preferences and select "automatically open comment pop-ups for comments other than notes"
- B. right-click (Windows) or Control-click (Mac OS) and choose Open Pop-up Note
- C. choose Edit > Preferences and select "automatically open comments on mouse rollover"
- D. right-click (Windows) or Control-click (Mac OS) and choose Reset Pop-up Note Location

Answer: A

QUESTION 15:

You are producing a letterhead with Microsoft Publisher. There is an image in the file that extends beyond the top edge of the page. When the sheet is cut, there is no visible gap along the top of the letterhead. Which setting should you select in the PDFMaker for Microsoft Publisher dialog box to include the extended image area in the PDF?

- A. Allow Bleed
- B. Enable Accessibility and Reflow with Tagged PDF
- C. Add Cut Marks
- D. Add Links to Adobe PDF

Answer: A

QUESTION 16:

Which statement is true about flattening transparency in a native PDF document and flattening transparency in Distiller?

- A. Transparency CANNOT be flattened in a native PDF.
- B. You CANNOT flatten transparency from within Distiller.
- C. Live transparency is automatically flattened by Distiller.
- D. Flattened transparency is NOT recognized by Distiller.

Answer: B

QUESTION 17:

You have turned off the setting to Use Local Fonts in the Advanced menu. Which statement is true?

- A. Fonts that have been embedded will display using the substitute fonts.
- B. Fonts that have been embedded and subsetted will display using the substitute fonts.
- C. Fonts that have been embedded and NOT subsetted will display using the substitute fonts.
- D. Fonts that HAVE NOT been embedded will display using the substitute fonts.

Answer: D

QUESTION 18:

You want to create an Adobe PDF document from a Web page. You choose File > Create PDF > From Web Page, and click the Settings button. You select Create PDF tags from the General tab of the Web Page Conversions Settings dialog box. Which element is stored in the PDF document?

- A. the originating URL of the page
- B. HTML table cells

- C. the background color of the HTML page
- D. JavaScript commands

Answer: B

QUESTION 19:

You are applying password security to a PDF document. Which setting prevents search engines from accessing information such as author and keywords?

- A. Encrypt all document contents except metadata (Acrobat 6 and later compatible)
- B. Enable text access for screen reader devices for the visually impaired
- C. Encrypt all document contents
- D. Enable copying of text, images, and other content

Answer: C

QUESTION 20:

You want to encrypt a PDF document for a specific group of users. You do NOT set permissions for some of the users. What happens when those users attempt to open the PDF document?

- A. They will be able to open the document, but will be unable to print, comment or extract.
- B. They will have full access.
- C. They will have permissions equal to the most stringent permissions set for the user list.
- D. They will be unable to open the document.

Answer: B

QUESTION 21:

After choosing File > Create PDF > From Multiple Files, you select multiple files for consolidation into a single PDF document. In which order will the selected files, displayed in the Files to Combine field of the dialog, be consolidated?

- A. the order displayed in the list
- B. alphabetical order
- C. the sort order specified in the Organizer window
- D. the sort order specified in the Convert to PDF dialog box

Answer: A

QUESTION 22:

Which statement about creating a custom stamp is true?

- A. You must keep the artwork dimensions under 2" x2" (50.8mm x 50.8mm).
- B. You must use an Adobe PDF document as source art.
- C. You must use vector art as source art.
- D. You must give the stamp a category and a name.

Answer: D

QUESTION 23:

What is the most efficient way to create a PDF document from a Word document suitable for high quality print production and/or separation?

- A. use PDFMaker and choose the Press Quality job option
- B. use the Adobe PDF printer and choose the Smallest File Size job option
- C. use Distiller and choose the Standard job option
- D. create PDF from File in Acrobat and choose the High Quality job option

Answer: A

QUESTION 24:

Your prepress software does NOT support transparency. You need to create a PDF document that does NOT contain transparency. Which is the highest version of Acrobat that you can select in the Compatibility pop-up menu of the General tab in the Adobe PDF Settings dialog box?

- A. Acrobat 4.0 (PDF 1.3)
- B. Acrobat 6.0 (PDF 1.5)
- C. Acrobat 5.0 (PDF 1.4)
- D. Acrobat 3.0 (PDF 1.2)

Answer: A

QUESTION 25:

You have a preflight profile that checks PDF documents for PDF/X-1a compliance and compliance for your particular press condition. Which should you set as an error in addition to the PDF/X-1a compliance check?

- A. The output intent is not set to swop or snap standards.
- B. Trapping key is not set.
- C. RGB is used as color mode.

D. The resolution of the images is too low.

Answer: D

QUESTION 26:

You are using Distiller to create a PDF document. The PDF document will be sent to a commercial printer that uses computer-to-plate imaging. The imaging device requires an image resolution of 400 pixels per inch for color and grayscale images. What should you do?

- A. choose the High Quality Print job option
- B. create a customized job option
- C. use the PDF Optimizer to increase resolution
- D. rescan your images at the correct resolution

Answer: B

QUESTION 27:

What should you do to create a PDF document that does NOT have transparency?

- A. create PostScript by using Distiller
- B. export it directly from InDesign as a PDF 1.5 file
- C. recreate any effect that uses transparency to remove it
- D. use Distiller to flatten the transparency as the PostScript is being distilled

Answer: A

QUESTION 28:

Using the Fix Hairlines tool to find and replace thin lines in a PDF document can be problematic if _____.

- A. there are no hairlines in the PDF
- B. widths are increased or decreased by whole integers
- C. it is used to replace hairlines in Type 3 fonts
- D. an inappropriate unit of measure is chosen

Answer: C

QUESTION 29:

You are creating a PDF document to submit as a print-ready file. Because you have several images in the project that you have scaled down in size, you want to have Distiller downsample the files to reduce overall file size. Which should you select from

the Images menu of the Adobe PDF Settings dialog box?

- A. Average Downsampling
- B. Subsampling
- C. You should NOT select anything. You should NOT downsample any images.
- D. Bicubic Downsampling

Answer: D

QUESTION 30:

You want to use the How To window to find the answer to a question. However the How To window is closed. How do you re-display the How To window?

- A. choose Preferences > General
- B. choose Preferences > Accessibility
- C. choose Help > About Acrobat 7.0 Professional
- D. choose Help > How To > Acrobat Essentials

Answer: D

QUESTION 31:

What happens to untagged images when an ICC color profile is applied to the image?

- A. The colors in the image are defined so that a printer can separate the colors in it.
- B. The color numbers for the image are converted to CalRGB.
- C. The color numbers in the image are converted making it compatible with a specific printing device.
- D. The ICC profile is now used in the color managed workflow.

Answer: D

QUESTION 32:

You are looking for instructions in the Complete Acrobat 7.0 Help on how to convert your PDF document to HTML. What is the most efficient way to locate all of the relevant topics?

- A. click the Index tab, then click on the entry caving, formats > HTML
- B. click the Contents tab, then click on the entry Caving and Converting Adobe PDF Content > Converting Adobe PDF documents to other file formats > Conversion options for HTML, XML, or plain text format
- C. click the Index tab, then click on the entry HTML Files > conversion settings
- D. click the Search tab, type HTML

Answer: D

QUESTION 33:

You have digitally signed a PDF document. Which restrictions apply to other users who open the file in Adobe Acrobat Professional and attempt to make changes in the document?

- A. They are UNABLE to print the document.
- B. There are NO restrictions, but your signature is rendered as changed.
- C. They are UNABLE to digitally sign the document.
- D. There are NO restrictions, but your signature is rendered as invalid.

Answer: D

QUESTION 34:

The PDF/ X-1a and PDF/X-3 conversion settings in the Acrobat PDFMaker dialog box are used to create _____.

- A. low resolution PDF files for posting on the Internet
- B. high quality PDF files for printing to in-house output devices
- C. low resolution PDF files for on-screen viewing only
- D. high quality PDF files for newspaper and/or magazine publishing

Answer: D

QUESTION 35:

You want to add a comment without using a commenting tool. You have copied the text for the comment from a document in a word processing application. What should you do?

- A. select the Hand tool and paste
- B. select the TouchUpText tool and paste
- C. select the Pencil tool and paste
- D. select the Select tool and paste

Answer: A

QUESTION 36:

You have created an Adobe PDF document. When users view the file, the fonts do NOT display as they did in the original application document. Why do the font display incorrectly?

- A. The fonts were outlined.
- B. The original font was an OpenType font.
- C. The original font was a TrueType font.
- D. The fonts were NOT embedded in the PDF document.

Answer: D

QUESTION 37:

How should you enable a PDF document so that it has commenting rights in Adobe Reader 7.0?

- A. send for an email-based review using Acrobat 7.0 Standard
- B. upload for a browser-based review using Acrobat 7.0 Professional
- C. send for an email-based review using Acrobat 7.0 Professional
- D. upload for a browser-based review using Acrobat 7.0 Standard

Answer: C

QUESTION 38:

What is the result of printing separations to a PostScript file and then converting it to PDF?

- A. a grayscale PDF that will automatically separate on output
- B. a composite-color PDF with separation parameters built into the PDF header
- C. a preseparated file that contains a PDF page for each plate of each page in the document
- D. a conversion error, resulting in no file generated

Answer: C

QUESTION 39:

You are creating an Adobe PDF document from a Microsoft Word document. Users will print the PDF document on laser and ink jet printers. You want to maintain print quality while minimizing the file size. From Word, you choose Adobe PDF > Change Conversion Settings. Which option should you choose from the Conversion Settings pull-down menu in the PDFMaker Settings panel?

- A. Press Quality
- B. Standard
- C. Smallest File Size
- D. High Quality

Answer: B

QUESTION 40:

You want to set the security on a PDF document to enable plaintext metadata. Which Compatibility setting should you use?

- A. Acrobat 6.0 and later
- B. Low (40-bit RC4)
- C. High (128-bit RC4)
- D. Acrobat 5.0 and later

Answer: A

QUESTION 41:

A dark spot color ink is spreading during trapping. How should you adjust this in the Ink Manager?

- A. reset the ink Type to Normal instead of Opaque or OpaqueIgnore
- B. adjust its sequence to a higher number in the printing order
- C. raise its neutral density
- D. redesign the project to remove the need for trapping

Answer: C

QUESTION 42:

You create a document that contains a transparent one-color vector logo overlapping a solid-color background. In the Flattener Preview dialog box, which Raster/Vector Balance setting should you use to preview and apply transparency flattening to the resulting PDF document?

- A. 50
- B. 0
- C. 100
- D. 75

Answer: C

QUESTION 43:

Which two modifications can be made in the Ink Manager? (Choose two.)

- A. remapping spot colors to equivalent CMYK builds
- B. converting all RGB colors to CMYK
- C. removing all LAB colors

- D. creating an alias from one color to another
- E. removing all spot colors from a document

Answer: A,D

QUESTION 44:

How do you make a security policy display in the Secure button menu?

- A. create a user security policy on an Adobe Policy Server
- B. click the View button in the Managing Security Policies dialog button
- C. create an organizational security policy on an Adobe Policy Server
- D. click the Favorite button in the Managing Security Policies dialog button

Answer: D

QUESTION 45:

You are creating color separations at output and need to convert a spot color to 4-color process. What should you do?

- A. You choose Advanced > Separation Preview and then select the appropriate color name.
- B. You do nothing. Spot color conversion needs to be done before the PDF document is created.
- C. You choose Document > Preflight, select List all objects not 4c from the Profiles dialog box, and click Analyze.
- D. In the Advance Print Setup dialog box, you choose Separations from the Color pull-down menu and then select Convert All Spots to Process in the Ink Manager.

Answer: D

QUESTION 46:

You want to reduce the file size of an existing PDF document. You want to use the PDF Optimizer to discard unnecessary objects. Which option removes accessibility and reflow capabilities from the document?

- A. Discard All JavaScript Actions
- B. Discard Embedded Thumbnails
- C. Discard All Alternate Images
- D. Discard Document Structure

Answer: D

QUESTION 47:

Which element can be fixed from the Fix Hairlines dialog box?

- A. Photoshop images
- B. gradient mesh objects
- C. trim marks
- D. Type1 fonts

Answer: C

QUESTION 48:

You have inadvertently created an alias for an ink that exists on one page of a PDF document to an ink that exists on another page. You want to identify this problem. What should you do?

- A. preview your color separations from the Output Preview dialog box
- B. select Rich Black from Warnings area of the Output Preview dialog box
- C. set the neutral densities of the colors in the Ink Manager
- D. select Total Area Coverage in the Output Preview dialog box

Answer: A

QUESTION 49:

When creating a preflight droplet, what do the On Success and On Error sections specify?

- A. where to store files after inspection
- B. what to name files after inspection
- C. when to discontinue inspection
- D. how to highlight files after inspection

Answer: A

QUESTION 50:

You have a document that contains both color and grayscale images. Which should you do in the Images options section of the Adobe PDF Settings dialog box to create a PDF document that is optimized for viewing in a Web browser?

- A. set the Grayscale Images to Downsample to 300 pixels per inch
- B. set the Compression for Color Images to Off
- C. set the Compression for Grayscale Images to Off
- D. set the Color Images to Downsample to 150 pixels per inch

Answer: D

QUESTION 51:

Which task can be performed by using the Ink Manager?

- A. darken or lighten areas of a printed image
- B. set the line screen and angle of a specific plate
- C. determine the amount of ink placed on the printed page
- D. map one spot color to print on another spot color's plate

Answer: B

QUESTION 52:

How can you add a signature field to a PDF document so that another person can sign it?

- A. choose Document > Digital Signatures > Create a Blank Signature Field
- B. choose Document > Digital Signatures > Sign this Document
- C. choose Document > Digital Signatures > Validate All Signatures in Document
- D. choose Document > Digital Signatures > Validate Signature

Answer: A

QUESTION 53:

You are going to create a PDF document from a Web page. You want to capture the Web page, but not the background image. You open the HTML Conversion Settings dialog box. What should you do next?

- A. select Disable Media Capture
- B. deselect Convert Images
- C. set the Background Color to White
- D. deselect Page Tiled Image Backgrounds

Answer: D

QUESTION 54:

When previewing separations in the Output Preview panel, what does the Total Area Coverage indicator highlight?

- A. areas on the page where there is not enough ink to cover the page
- B. areas that use more ink than the selected maximum percentage
- C. any place where a spot-color object sits on top of a process-color object

D. gaps in a solid-color object when placed next to another solid-color object

Answer: B

QUESTION 55:

Which technique generates a tagged PDF document?

- A. choose File > Print > Adobe PDF
- B. convert a PostScript file using Acrobat Distiller
- C. use PDFMaker from a Microsoft Office application
- D. choose Create PDF > From Clipboard Image

Answer: C

QUESTION 56:

When printing to highly absorptive paper, such as newsprint, which Gray Working Space are you most likely to need in the Color panel of the Adobe PDF Settings dialog box in Distiller?

- A. sGray
- B. Black & White
- C. Dot Gain 10%
- D. Dot Gain 30%

Answer: D

QUESTION 57:

You have set the background color of pages and the color of text by using the Preferences dialog box while a PDF document is open. Which do these specifications affect?

- A. the view of the PDF documents any user will see on any system
- B. your view of the PDF document
- C. your view of all PDF documents
- D. the printing of the PDF document

Answer: C

QUESTION 58:

You want to change the font size of text by using the TouchUp Text tool.
You have highlighted the text.
What should you do?

- A. Control-click (Mac OS) or right-click (Windows) and choose Properties
- B. choose Tools > Print Production
- C. choose Tools > Advanced Editing
- D. Control-click (Mac OS) or right-click (Windows) and choose Create Artifact

Answer: A

QUESTION 59:

You create a preflight profile that checks a PDF document to see if a custom halftone setting is used and flags it if an error is found. Which type of PDF document will be flagged with an error?

- A. one with a process duotone in it
- B. one with smooth shade gradients in it
- C. one that uses any spot color
- D. one that contains grayscale data

Answer: B

QUESTION 60:

Which type of security policy allows individuals to limit the time period within which access to a PDF document is allowed?

- A. user security policy on an Adobe Policy Server
- B. organizational security policy on an Adobe Policy Server
- C. password security policy
- D. public key certificate security policy

Answer: A

QUESTION 61:

You want to use the Zoom In tool to view a specific area on your document page. Which method automatically centers the area within your window?

- A. select the Zoom In tool, hold down Option (Mac OS) or Alt (Windows) and click once
- B. drag the Zoom In tool across the desired area
- C. select the Zoom In tool, hold down Option (Mac OS) or Alt (Windows) and drag across the desired area
- D. click once with the Zoom In tool

Answer: B

QUESTION 62:

Which setting is needed to convert a Microsoft Office document to PDF document that will be used for high-quality printing?

- A. Enable Accessibility and Reflow with Tagged PDF
- B. Allow Bleed
- C. Subset Embedded Fonts
- D. Convert Colors to CMYK

Answer: D

QUESTION 63:

Which is required to save a PDF document as a certified document?

- A. a signature appearance
- B. a digital ID
- C. a password
- D. a signature field

Answer: B

QUESTION 64:

What does a Simulation Profile in the Output Preview panel do to color in a PDF document?

- A. adjusts the on-screen color to more accurately represent the color as it will appear in the printed document
- B. varies the dynamic range of the colors in the PDF, based on the monitor that is displaying the file
- C. resets the color values in the file so that the color in the file will more accurately match what the document looked like on a computer monitor
- D. converts the color from RGB to CMYK for faster display and more accurate reproduction

Answer: A

QUESTION 65:

You choose File > Create PDF > From Scanner. You select Searchable Image as the PDF Output Style from the Recognize Text Settings dialog box. Which statement about the resulting PDF document is true?

- A. The page is unchanged.

- B. You are able to select text.
- C. Graphic elements are removed.
- D. The appearance of the page may change.

Answer: B

QUESTION 66:

You are previewing color warnings in the Output Preview dialog box. A spot-color logo is set to overprint a colored background in the PDF document. What should you do?

- A. use the Ink Manager in Acrobat to alias the ink used for the object to a non-overprinting ink
- B. convert the job to process, so that the mix is not visible
- C. reset the logo to knock out in the authoring application used for the project and remake the PDF
- D. have the print vendor for the job reset the object in the RIP so that it no longer overprints

Answer: C

QUESTION 67:

You want to change the font size of text by using the TouchUp Text tool. You have highlighted the text. What should you do?

- A. choose Tools > Print Production
- B. Control-click (Mac OS) or right-click (Windows) and choose Create Artifact
- C. Control-click (Mac OS) or right-click (Windows) and choose Properties
- D. choose Tools > Advanced Editing

Answer: C

QUESTION 68:

How can you view two non-adjacent pages of a 10-page document at the same time?

- A. choose View > Page Layout > Facing and scroll to the appropriate pages
- B. choose Window > Spreadsheet Split and scroll to the appropriate pages in separate panes
- C. choose Window > Split and navigate to the appropriate pages in the separate panes
- D. choose View > Navigation Tabs and arrange your pages in the appropriate order

Answer: C

QUESTION 69:

You want to create a custom preflight profile to determine if a PDF document is PDF/X-1a compliant. Which must be checked by the profile?

- A. color model used
- B. media size
- C. file type
- D. image resolution

Answer: A

QUESTION 70:

You are creating an Adobe PDF document from a Microsoft Word document. Users will print the PDF document on laser and ink jet printers. You want to maintain print quality while minimizing the file size. From Word, you choose Adobe PDF > Change Conversion Settings. Which option should you choose from the Conversion Settings pull-down menu in the PDFMaker Settings panel?

- A. Standard
- B. Press Quality
- C. High Quality
- D. Smallest File Size

Answer: A

QUESTION 71:

You are using RGB logos and want to maintain the intensity of the colors in your PDF document. When managing color in a PDF document using the Color panel of the Adobe PDF Settings dialog, which Document Rendering Intent is most suitable for accurate color proofing?

- A. Saturation
- B. Relative Colorimetric
- C. Perceptual
- D. Absolute Colorimetric

Answer: A

QUESTION 72:

What should you do to open a PDF document that contains specific text?

- A. choose Edit > Find, type the text and click Next

- B. choose Edit > Find, type the text and click Previous
- C. choose Edit > Search, type the text and select the option to search all PDF documents in a designated folder, then click the Search button
- D. choose Edit > Search, type the text, select the option to search in the current PDF document, then click the Search button

Answer: C

QUESTION 73:

What does the Output Preview panel color warning highlight if the Show Overprinting option is selected?

- A. objects that will print on top of each other instead of knocking out
- B. sections of the page that contain objects that are too close to the edge of the press sheet
- C. areas where CMYK color and spot colors touch and therefore require trapping
- D. areas where the ink is too dense

Answer: A

QUESTION 74:

Which preflight feature allows you to preflight your file against the PDF settings of a print service provider?

- A. PDF/X
- B. import of a profile
- C. validation
- D. import of an FDF

Answer: B

QUESTION 75:

You have run the Full Check Accessibility command on a tagged PDF document. The report indicates that one of the figures does NOT have alternate text applied. How should you add the alternate text?

- A. choose Advanced > Accessibility > Change Reading Options
- B. in the Tags pane, Control-click (Mac OS) or right-click (Windows) on the figure tag and select Properties
- C. in the Tags pane, Control-click (Mac OS) or right-click (Windows) on the figure tag and select Tag Annotations
- D. Control-click (Mac OS) or right-click (Windows) on the figure and select Add Note

Answer: B

QUESTION 76:

Which preflight feature allows you to preflight your file against the PDF settings of a print service provider?

- A. import of an FDF
- B. import of a profile
- C. PDF/X
- D. validation

Answer: B

QUESTION 77:

You are creating a PDF document for print. The job will be printed at 133 lines per inch on a sheet-feed offset press. Which sampling values should you use for monochrome images in the Images panel of the Adobe PDF Settings dialog box?

- A. 300 pixels per inch for images above 800 pixels per inch
- B. 1200 pixels per inch for images above 1800 pixels per inch
- C. 133 pixels per inch for images above 800 pixels per inch
- D. 133 pixels per inch for images above 300 pixels per inch

Answer: B

QUESTION 78:

Which icon takes you to the Home page of the How To window?

A.

B.

C.

D.

- A. A
- B. B
- C. C
- D. D

Answer: A

QUESTION 79:

Which type of security policy allows individuals to limit the time period within which access to a PDF document is allowed?

- A. public key certificate security policy
- B. password security policy
- C. user security policy on an Adobe Policy Server
- D. organizational security policy on an Adobe Policy Server

Answer: C

QUESTION 80:

What does the Emit Printer Marks setting in the Marks and Bleeds panel of the Advanced Printer Setup dialog do?

- A. specifies the cropbox size
- B. uses the printer marks embedded in the Adobe PDF file
- C. determines the weight of printer mark lines
- D. creates all printer marks at once

Answer: B

QUESTION 81:

You are about to submit a PDF document to a print vendor. The document uses full-color images. You notice that the document contains three spot colors. This should be a four-color process job, and you do NOT have the original files. What should you do?

- A. use the Ink Manager to alias all spot colors to process simulations
- B. ask the print vendor to combine the spot plates to one of the process plates at print time with Acrobat
- C. use the Preflight tool to convert the job to a process-color job
- D. redistill the file and convert all colors to CMYK with Distiller

Answer: A

QUESTION 82:

Which mark is necessary if your project includes bleeds?

- A. bleed
- B. trim
- C. registration
- D. page information

Answer: B

QUESTION 83:

Which Preflight Report option allows you to highlight problem areas with a transparent mask?

- A. XML Report
- B. Text Report
- C. Insert Preflight Results As Comments
- D. PDF Report

Answer: D

QUESTION 84:

Which preflight problem would cause failure during validation for the digital press (color) profile?

- A. Object uses CMYK.
- B. Document images are on CMY plates.
- C. PDF/X label is missing or incorrect.
- D. PDF version is newer than 1.2.

Answer: C

QUESTION 85:

You have created a four-color brochure. It needs to be sent to a commercial printing company for reproduction, and the printer has required that you build all necessary elements for printing (e.g., fonts and graphics) into a PDF document. Which Acrobat Distiller job option should you choose?

- A. Smallest File Size
- B. High Quality Print
- C. Standard
- D. Press Quality

Answer: D

QUESTION 86:

You want to determine if the number of printing plates that will be generated from a PDF document will exceed a certain number. What should you do?

- A. create a batch sequence with a Preflight command
- B. create a preflight profile and assign a condition in the Document Property group
- C. create a preflight profile and assign a condition in the Colors Property group
- D. create a batch sequence with a Number Pages command

Answer: C

QUESTION 87:

Which mark is necessary if your project includes bleeds?

- A. page information
- B. trim
- C. bleed
- D. registration

Answer: B

QUESTION 88:

Which part of a digital ID is shared with others to verify the digital signature of the person who created the document?

- A. public certificate
- B. certificate authority
- C. PKCS#12 file
- D. private key

Answer: A

QUESTION 89:

You want to add a page number to the footer on all but the first page of your PDF document. The first page is an odd numbered page. Which option in the Page Options section of the Add Headers & Footers dialog box should you choose?

- A. Apply to Page Range
- B. Odd Pages Only
- C. Even Pages Only
- D. Apply to All Pages

Answer: A

QUESTION 90:

Your PDF document contains a chart. You want to include the original source document for this chart as a reference. What should you do?

- A. select the Attachments pane, click on the Add button and select the appropriate document
- B. select the Attachments pane, choose Options > Open Attachment
- C. choose Document > Compare Documents and choose the appropriate file
- D. choose Advanced > Links

Answer: A

QUESTION 91:

You want to create a comment that draws a text box directly on the page. Which commenting tool should you use?

- A. Text Box tool
- B. Pencil tool
- C. Select tool
- D. Note tool

Answer: A

QUESTION 92:

What is the purpose of the Simulation Profile setting in the Output Preview dialog box?

- A. to describe the target output device
- B. to highlight warning areas for color problems
- C. to identify the color space used in the PDF
- D. to specify how overprinting will be handled in the resulting PDF

Answer: A

QUESTION 93:

You have several PDF documents that are located in different folders. You want to be able to access these documents from a single location without copying or moving them. Which feature of the Organizer allows you to do this?

- A. Favorite Places
- B. History
- C. Pages pane
- D. Collections

Answer: D

QUESTION 94:

You have run the Full Check Accessibility command on a tagged PDF document. The report indicates that one of the figures does NOT have alternate text applied. How should you add the alternate text?

- A. Control-click (Mac OS) or right-click (Windows) on the figure and select Add Note
- B. in the Tags pane, Control-click (Mac OS) or right-click (Windows) on the figure tag and select Properties
- C. choose Advanced > Accessibility > Change Reading Options
- D. in the Tags pane, Control-click (Mac OS) or right-click (Windows) on the figure tag and select Tag Annotations

Answer: B

QUESTION 95:

You want to add a bookmark to a PDF document. What should you do?

- A. select the Pages pane, select the desired page, choose Options > Page Properties
- B. select the Bookmark pane, click the Create New Bookmark button, then change to the desired view
- C. choose Edit > Add Bookmark, then change to the desired view
- D. set the desired view, select the Bookmark pane, then click the Create New Bookmark button

Answer: D

QUESTION 96:

You want to attach a file to your PDF document so that a user can open the attached file by clicking on an icon that displays in a specific location on a page. What should you do?

- A. create a link with an action of Go to Page View
- B. click the Attach a File icon in the toolbar
- C. click the Attach a File as a Comment icon in the Commenting toolbar
- D. create an envelope

Answer: C

QUESTION 97:

What does dragging PDF documents onto a preflight droplet allow you to do?

- A. create multiple preflight profiles
- B. send multiple files to an output device
- C. inspect multiple PDF documents for problem areas
- D. convert multiple file types to PDF

Answer: C

QUESTION 98:

Which kind of PDF document should be created by using the PDF/A (Draft) specification?

- A. documents being stored in a digital archive
- B. graphics project files for proofing
- C. files that need to be as small as possible
- D. files that need to be locked against changes

Answer: A

QUESTION 99:

You are using Distiller to create the smallest appropriate PDF document for high-end imaging. In the Images panel, which resampling option should you use to obtain the smoothest tonal gradations?

- A. Subsampling
- B. Average Downsampling
- C. Off
- D. Bicubic Downsampling

Answer: D

QUESTION 100:

Your PDF document contains text and transparent objects that overlap. When printed, the text is rasterized. What should you do from the Flattener Preview dialog box to correct the problem when the document is printed?

- A. raise the Line Art and Text resolution
- B. raise the Gradient and Mesh resolution
- C. deselect Clip Complex Regions
- D. move the Raster/Vector balance more towards Vectors

Answer: D

QUESTION 101:

Which statement about setting up a browser-based review is true?

- A. New comments are stored in the FDF file.
- B. Comments uploaded with the document are editable.
- C. New comments are stored in the PDF file.
- D. The location of the FDF file that contains the review comments must be in the same location where the review document is stored.

Answer: A

QUESTION 102:

You choose File > Create PDF > From Scanner. You select Searchable Image as the PDF Output Style from the Recognize Text Settings dialog box. Which statement about the resulting PDF document is true?

- A. Graphic elements are removed.
- B. The page is unchanged.
- C. The appearance of the page may change.
- D. You are able to select text.

Answer: D

QUESTION 103:

What should you do to remove a section of your document and use it as a separate PDF file?

- A. choose File > Create PDF > From File
- B. choose Document > Replace Pages
- C. choose Document > Extract Pages
- D. choose Document > Delete Pages

Answer: C

QUESTION 104:

Which is searched by default in a PDF document by using either the Find toolbar or the Search PDF window?

- A. document properties
- B. XMP metadata
- C. form fields
- D. object data

Answer: C

QUESTION 105:

You have set the background color of pages and the color of text by using the Preferences dialog box while a PDF document is open. Which do these specifications affect?

- A. your view of all PDF documents
- B. the view of the PDF documents any user will see on any system
- C. your view of the PDF document
- D. the printing of the PDF document

Answer: A

QUESTION 106:

Which Preflight Report option allows you to highlight problem areas with a transparent mask?

- A. PDF Report
- B. Text Report
- C. XML Report
- D. Insert Preflight Results As Comments

Answer: A

QUESTION 107:
