TGIS HASH SHEET No. 504

Directions for next run

TGIS Run No. 505, Saturday 10 May @ 4.00pm

Hares: Satyo & Nunuk

Location: Below Hambalang

Directions; Take the Jagorawi Toll Road and exit at Sirkuit Sentul. After the toll booth, turn left, and then turn right at the Tee junction (in the direction of Sentul Selatan). Follow this road for 3 km and turn left (just after the small bridge) at the sign "Griya Alam Sentul". Follow this rocky road past Griya Alam Sentul (do not enter) for 1.2 km to a security barrier on your right. Enter through this barrier; continue on over the bridge and up the hill, turning right at the roundabout (450m from the security barrier). Proceed on this road for 300m to the run site

Scribe Report:

Run: 504

Hares: Herpes, Chlamydia & Bruno

Location: Jawa Barat farmlandas

Date: Saturday 26 April 2008

Introduction:

Flyers for this weekend promised numerous trails i.e. super short, short, medium long...and super long. You could spot the anticipation on the faces especially Wimbo at the thought of a real challenge for a change. The pre run announcement suggested that this would be a farmyard type run, those of us from the animal families cows, sheep, ect were also drooling at the prospect

Very Tempting

The run

Heading out through coconut plantations, cunning checks for the FRB's that for once did not go straight thru, there was creative use of the landscape not Austrian Alpine country (no cellars or dungeons)... with only a few gentle climbs. There was real shitty creek crossing that a few of us detoured around. The hare actually volunteered the fact that he himself did not get his feet wet, obviously he had trail blazed the detour. As promised this was in fact a farmyard jaunt. Encounters with horned beasts without knowing if that rope was strong enough or how long it was to give a sense of security as we gave these beasts a wide swerve. The hares suggested 1hr 90 mins for the watch less runners; much less for those with GPS, This ed took 1hr and 40 mins, with no clue as to when the FRB's made it in

The circle

GL/GM voiced the gather round call to get the circle proceedings underway, beers were dished out to the normal array of sinners. GM reminded us that some gay French dude who's claim to fame was designing UM's clothes (Bit of a useless pastime)...had been called to the great hash circle in the sky. HOMO Simpson was called in to drink a beer in memory of Jean Claude Homo.. Same family. GM had cleverly sensed homo's grief at this loss. Various other beers were dispensed Tina Tuna for firing her maid, Lick a Clit for making booze hazy phone calls at 3.00 am, trying ask for details of run sites. Beaver turn on his UM for supporting her pantat on some woolly sheep like device that sheepskin described as a Road Kill albino beaver.

Bent Chong announced that he has recently launched a Brest enlargement clinic in Kota. Most of the Ums were seen scribbling down his contact details to set up appointments for reduction surgery on there man boobs. Piss pourers Ali and Homo were retired in favour of a non running specimen to take the role of piss pourer from Maiden (Medan).

The Piss pourer

The better bits of the Piss Pourer

By this time in proceedings Mac Dickhead had reached beer 18 and was starting to voice and feel the pain, having been a keen verbal participant throughout the early part of proceeding he was seen to be walking off into the bush to offload 5+ litres of body fluid, he was cunningly followed by Juicy Teaser on the pretext to take some photos or possibly she had another agenda. It was this scribes camera that was used yet no photos of the beer stream were returned.

As a holdover from the last run all the masseurs in the circle were to be checked by Wimbo to confirm that they were complying with local regulations and were

wearing padlocks. Investigations revealed that Homo Simpson was the lone complier simply because he had mislaid the key.

Hash Cash report:

Hash cash 2 Beaver Kecil... 41 runners assembled. The usual array of beers for returners, new runners ect. Out of sync with proceedings Short change requested that TGIS recognise her by her real name "Head Job" a lively debate ensued linking a minor name change versus all the extra beer. An extra keg was the prize.. rational took over, more beer for those assembled and a real hash name was the way to go. GM announced the name change to be official and the extra barrel was added

Run discussion:

Beaver turd made a comment about the excellent nature of the location Our model piss pourer from Medan gave a comment in Bahasa, that when translated seemed to imply that she has never run in her life and has no idea why she was asked...and continued to pour piss

Chemical Ali commented that there was no hair on the run, gather he is looking for some. Possibly Bent Chong can add the transfer of pubic hair to the shiny tops of Iranians as one of the services he can offer at his new breast enlargement that also does Brazilian tidy up jobs.

The Columbian duo commented that this was a well engineered run. The thought was that the engineering was all chemical and the substances had consumed hade blurred there perspective of reality.

Wood pecker said something about new legs, possibly it not only his pecker that has helped ravages the Sumatran rain forests.

Wimbo who through his own confusion had run the super short claimed that the run should have had more checks was an excellent but

Final verdict for the very experienced team of trail setters was good run. However we did not hear much comment from Chlamydia... dare we make a comment on the Austrian cellar dungeon situation.

The Hares

Where the fuck r we award

Went to the below group of beaverturds... and visitors from that other archipelago of Islands somewhere north of Java. The visitors we believe were promoting another beer brand which is associated with the Manila gay community
