

Ask your Board of Trustees why they are **BORROWING** at least  
**\$250,000** for a Tony Smith Sculpture (Tau) on Sloan Street

BEFORE

AFTER

Source: <http://www.artnet.com/Magazine/reviews/walrobinson/Images/robinson8-2-16.jpg>

**Why is this being funded with TAX DOLLARS at a time when taxes are going up significantly and traditional government projects – the Library, Baird Center, Streets, etc. – have unmet needs?**

**Why isn't the Taxpayer contribution contingent upon the private funding?** Private contributions are supposed to cover only \$160,000 of the \$410,000 project, but there is no hard private funding requirement – taxpayers are on the hook!

**Why was a contract to manufacture the sculpture executed by the Village before all of the private money was raised?** And before any residents knew that the Township was borrowing money (bonding) for the project.

**Why did the Board of Trustees mislead the public about the source of the money?** Bill Calabrese, Allan Rosen & Arthur Taylor said it was Grant-funded the very week the contract was executed and incorrectly told residents so at a public meeting. <http://www.youtube.com/watch?v=t4V3Lw4zqd0>

Concerned about where your tax dollars are going and how your village is being changed?

Please sign the online petition and let the BOT know what you think:
