How My Whole Family Believed in Christ

Hallelujah! In the name of the Lord Jesus I testify.

I am Dn Andrew Tee Tiow Hoo, currently 55 years old. Before I believed in Christ, only my wife was a True Jesus Church member while the rest of my family are devout Buddhists. Later because of the Lord's great love and choosing, my family was one by one baptized into the Lord on 1979.

The Lord's Blessings Came to My Family

Before I believed in Christ, I was addicted to gambling. I would gamble from morning till night, skipping sleep. At that time, I had an ulcer in my stomach. Due to my gambling habits, it caused my ulcer to bleed badly and lose a lot of blood until I fell unconscious at the gambling den. As my sickness was severe, I rushed to my in-laws in the city to look for a good doctor. When I reached my in-laws' place, I fell unconscious again. This time it was scarier. My two pupils turned white, my tongue stuck out like a dead person. Luckily, my in-laws prayed persistently and through God's mercy, I was able to reawake. After an X-ray examination, it was discovered that I have a deep gash inside my stomach which was big as a thumb. Amazing! If not for the mighty hands of God, how can the wound stop bleeding? But at that time, I was very hard hearted. I did not give thanks, neither did I believe in God's healing power. Formerly, I did not know who Jesus is and have this wrong concept that Christianity is an unfilial Western Religion. Looking back now, I felt ashamed and unworthy to meet the Creator of the whole universe. If not for the

great mercy of God, I do not know what I would have become. I remembered that when I was sick, it was my father-in-law's (Kua Tien Sik) turn to host the service in his house (at that time, Petaling Jaya Church was still not dedicated). An old Deacon Titus Lim from Kajang was also attending the service (Deacon Titus Lim had never attended any Petaling Jaya home service before this). After service, prayer and receiving the laying of hands, I could walk up the stairs by myself. Before that, I had to have two men carry me downstairs. Hallelujah! Praise the Lord! Truly it was the wonderful arrangement of God. Thank God that through His guidance, the devil could not hinder me. On May 1979, the first batch of my family members (four people: Me, my two sons and a daughter) received baptism.

Mother Believed in Christ

How my mother believed in Christ is worth mentioning. After my illness was cured, I agreed to baptize reluctantly because I could not refuse to my in-laws' warm invitation to baptize should my sickness be cured. However, my mom thought that I was forced to baptize by my in-laws. Therefore, she strongly objected and with a serious tone said, "If you want to believe Jesus and be baptized, then our relationship as mother and son would be severed." It is amazing that such a hard hearted person who opposes the Lord would at the end be touched by the love of the Lord. This incident happened because my mom was always having illnesses. After being inflicted for over 30 years of coughing, rheumatism and gastric problems, she was cured by the Lord in just one day. The Lord's power had truly touched her. From the day she was cured, she no longer worshipped other gods. The sicknesses that she was inflicted with had tormented her for years, especially rheumatism. She spent a lot of money, sought for different Chinese, Western doctors and worshipped a lot of idols but it was all futile. Only the almighty saviour Jesus could cure all her illnesses in one day.

On the day I got baptized, my mother also attended the service and received the laying of hands. Just through that prayer, all her illnesses were cured by the Lord. How can the power and love of God not make her be humbly satisfied? On July 1979 during the dedication of Seremban church, the second batch of family member was baptized into the Lord.
