It has come to my attention that one Jeremy Bachuss of Little Rock, AR has submitted to you a compact disc containing the recorded works of a band collectively known as Tomorrow Comes Crashing. You received this disc after a performance at Vino's on the Braid Reunion Tour. The disc most likely has the letters TCC written on it. After load out you went to Waffle House/Hut/etc and had a little chat with Jeremy. I was informed that you were interested in the band in one capacity or another. In the following documents you will find all other relative information regarding the band, Tomorrow Comes Crashing.

I hope this finds you in good spirits.
