Family Pedigree Chart Name_____ Pr. ____ Date_____

Survey at least 4 of your immediate family members and fill out the table using the Phenotype codes. On the back, create a pedigree tree for each trait including each family member. Put the genotype of each family member by each person in the tree. * = dominant trait

Traits	Code	Code	Family Member #1		Family Member #2		Family Member #3		Family Member #4	
	Pheno-type	Geno-type	Phenotype	Geno-type	Phenotype	Geno-type	Phenotype	Geno-type	Phenotype	Geno-type
