TO WHOM IT MAY CONCERN:

This letter is in support of Ky Harral and his application to your organization.

To begin, Ky is an outstanding employee who brings dynamism to his job, which positively affects colleagues. He has always enjoyed extreme popularity with colleagues due to his efficiency and easy manner. He possesses a high quality of "people skills" that contributed greatly to his job performance.

Ky has shown a tremendous flexibility in his work for Haulsey Engineering, Inc. (HEI) and capabilities, which far transcend the company's "motto", Leaders by Performance. He has shown great aptitude for organizational matters. He is very proficient with his computer knowledge, support and is the best that I have seen in my career at HEI. HEI has 20 years of government contracting in which he has supported HEI with our contract vehicles and daily operations.

I would not hesitate to re-hire him immediately and in that regard, losing him to another organization was a real loss to our entire company.

However, I am enthusiastic in my recommendation of Ky Harral to your organization.

If you desire to speak directly, I can be contacted at 619-285-9958.

Sincerely,

Steve Ocasio
Office & Contracts Manager
