

# Your Kitchen: “The Ship’s Galley”

The Ship’s Galley (as we like to call it) is small but extremely functional with a new flat top range, new dishwasher and a new side by side Kenmore refrigerator.

Mahogany cabinet doors are abundant as well as tiled counter tops that have a unique wood trim that is 3/16” above the tile level to prevent water spills on the floor. Storage is unbelievable as you will soon see.

The wall separating your kitchen from the dining room is loaded with storage as well as sliding doors that reveal ample space for your appliances. Electric outlets abound under the cabinet for convenient cooking. (The microwave is included as well.)
