What do you go through surviving the biggest breakup, loss, pull-the-rug-out-from-under you catastrophe? How do you drag yourself out of the gutter, dust yourself off and, again and again, as many times as it takes, finally look up to the future...

...the **Yet2B**?

These heart-on-his-sleeve tales on the upcoming release by Philadelphia's own **Larry Saklad** weave a detailed picture full of contrasts, the stark realities, seeming polar opposites. He sneers, he croons, he growls, curses, and finally manages to find inspiration. And not just his voice, his guitars weep, rise, plead, fall off a cliff, clatter and pulse. His piano could be found in an old smoky saloon summoning the blues one second and John Lennon's Imagine the next, all with percussive thunder of bass and drums. But gradually, all the discord reaches a climax, then a surrender to come what may, and ultimately redemption.

Larry takes us on a journey that no human being is immune to, touches our deepest private fears, and then transforms our stormy nightmare into a new sunrise of refreshed dreams and light.

If this is the first time hearing his name it surely won't be the last.

Here now is **Yet2B**...
