BSA LIFEGUARD CERTIFICATION PROCEDURE

- Only those persons currently certified as *BSA Aquatics Instructor* or as *BSA Lifeguard Counselor* may certify the completion of BSA Lifeguard requirements.
- Certification as BSA Lifeguard is valid for 3 years from the date of application.
- All requirements must be met - no substitutions or omissions are permitted.
- The completed application is sent to the local council service center where BSA Lifeguard emblems may be purchased.
- To qualify for certification as BSA Lifeguard, the candidate must complete the BSA Lifeguard course consisting of a minimum of 30 hours under the direction of either a BSA Lifeguard Counselor or a BSA Aquatics Instructor. The course for the BSA Lifeguard is in the *BSA Lifeguard Counselor Guide*.

BSA LIFEGUARD RECERTIFICATION

To be recertified as BSA Lifeguard, a person who previously has been certified can complete the regular BSA Lifeguard course, passing each of the requirements. Those whose BSA Lifeguard certification is current or has expired within

the past 12 months can be recertified by demonstrating a current knowledge and ability to perform the skills necessary to fulfill BSA Lifeguard requirements. It is not necessary to retake the BSA Lifeguard course.

COUNSELORS' RESPONSIBILITY

Scouts, Explorers, or adults who become certified BSA Lifeguards must be well qualified and able to use their knowledge in case of need without undue danger to themselves and with a reasonable chance of success. The counselors are responsible for the strict interpretation of requirements and the elimination of applicants who in their judgement are not qualified by strength, judgement, or ability to put their knowledge into practice.

The reputation of the counselors as experts depends to a great extent on the actual performance of those they qualify. Therefore, they should be certain that the candidates' ability is, without doubt, of the highest caliber. It is expected that the BSA Lifeguard emblem and certificate will always stand for a very high standard of skill. The counselors to whom this responsibility is entrusted are expected to maintain that standard. For interpretation of requirements, see *BSA Lifeguard Counselor Guide*, No. 34534.

BSA LIFEGUARD REQUIREMENTS

Date

Counselor's
Initials

1. AGE REQUIREMENT

To enroll in the BSA Lifeguard course you must be at least 14 years of age or have completed the eighth grade.

2. PREREQUISITES

To enroll in the BSA Lifeguard course, you must

- (a) Swim 400 yards. Jump feetfirst in water over your head and swim continuously for 400 yards in a strong manner. The 400 yards shall

consist of a minimum of 50 yards of elementary backstroke; 50 yards of breaststroke; 50 yards of front crawl or trudgen; and 50 yards of sidestroke.

- (b) Surface dive. Perform a feetfirst and a tuck or pike surface dive in 8 to 10 feet of water and recover a 10-pound weight on both dives.
- (c) Float. Demonstrate the ability to rest by floating.
- (d) Dive. Perform a long, shallow dive.

BSA LIFEGUARD REQUIREMENTS	Date	Counselor's Initials		Date	Counselor's Initials
(e) Row. Complete the basic handling test for rowboats.			(4) Front head-hold escape		
(1) Demonstrate the ability to launch a boat properly, row a straight line for 100 yards, turn, come back in a straight line, land, and moor the boat properly.			(i) Remove the victim from the water using each of the following techniques:		
(2) Participate in a swamped-boat safety demonstration, including a demonstration of the use and care of PFDs.			(1) Pack-strap carry		
			(2) Lift from deep water assisted by a second lifeguard		
			(3) Shallow-water assist		
			(4) Beach drag		
			(j) Perform an ease-in entry into shallow water and approach a victim who is facedown on the surface and simulating a spinal injury. Turn the victim to a faceup position and support the victim at the surface.		
			(k) Perform an ease-in entry into deep water and approach a victim who is floating facedown on the surface and simulating a spinal injury. Turn the victim to a faceup position and maintaining contact, swim with the victim to a corner of the pool or the shallow end of the pool.		
			(l) Participate in a back-boarding procedure in shallow water.		
			(m) Perform the requirements found in the Snorkeling, BSA, award.		
3. AQUATIC SKILLS			4. FIRST AID AND CPR		
Demonstrate each of the following aquatic skills:			(a) Show evidence of the ability to perform the skills and a knowledge of the subjects covered in the First Aid merit badge.		
(a) Perform a long, shallow dive into deep water and swim 25 yards in 20 seconds or less using an approach stroke.			(b) Show a knowledge of the procedures for treating a near drowning, of the universal precautions for bloodborne pathogens, of personal health protection, and of aquatics-related first aid.		
(b) Throw a line for accuracy 10 yards, three times in one minute. The line may be weighted, unweighted, or a ring buoy.			(c) Have current certification in basic cardio-pulmonary resuscitation (CPR) from the American Heart Association, the American Red Cross, or the National Safety Council.		
(c) Perform a rescue of a swimmer using a rowboat. Explain how other watercraft common to your area can be used to perform a rescue. Explain the advantages and disadvantages of different craft in making rescues.			5. EXAMINATION		
(d) Perform each of the following rescues with the aid of a rescue tube:			(a) Demonstrate an understanding of aquatics program and emergency-management skills by correctly answering 80 percent of the questions in a written or oral exam on theory and knowledge (the standard BSA Lifeguard examination).		
(1) Using a front approach, swim with the rescue tube 15 yards to a conscious, passive victim; extend the rescue tube to the victim; have the victim grasp the rescue tube; and tow the victim back to the starting point in the water.			6. PRACTICAL EXPERIENCE		
(2) Using a front approach, swim with the rescue tube 15 yards to a conscious, passive victim; wrap the tube around the victim; and tow the victim back to the starting point in the water. Repeat using the rear approach.			(a) Explain how to guard each of the following activities:		
(e) Perform a stride jump into water at least 9 feet deep; swim 15 yards to an unconscious victim; perform a front surface approach; position the victim for a wrist tow; and tow the victim to the starting point in the water.			(1) Recreational swim (general swim)		
(f) Perform a long shallow dive into water at least 9 feet deep; swim 15 yards to the rear of the victim; position the victim in either a single- or double-armpit tow; and tow the victim to the starting point in the water.			(2) Unit swim		
(g) Jump feetfirst into water at least 9 feet deep; using a rear approach swim 15 yards to an active victim; contact the victim and level him or her using a single- or double-armpit tow; position the victim in a cross-chest carry; and return to the starting point in the water.			(3) Instructional swim		
(h) Perform the following defenses and escapes:			(4) Boating activity		
(1) One- and two-hand block			(5) Special event		
(2) Wrist-grip escape			(b) Serve as a lifeguard, under supervision, for at least two swimming activities (2 to 3 hours total).		
(3) Rear head-hold escape
