Optimum

This is the style that started it all for Adams Headwear. This style hat was not available in our marketplace until Adams introduced it in 1992. When we started, the goal was to make the best hat available. Period. We used the best fabrics we could find, paid attention to details like fit, construction, color, style, etc. The Optimum series includes, the LP101 the traditional cotton pigment-dyed hat in solid colors. The LP102 is the two tone version of the LP101 using a khaki colored crown. The LP103 is also a two tone, we just use a stone colored crown. Now we offer the LP104, which has the same styling, fabric and construction as the LP101, but we use vat dye and wash instead of pigment dyeing. The result is truer colors.
